“MA” FERGUSON TAKES REINS IN TEXAS

HUGE THROGS GATHER TO SEE NEW GOVERNOR

First Woman Executive Takes
Place of Husband Removed
from Office

KISSES ANCIENT BIBLE

New Chief Attains Political Dis-
tinction Held by Only One
Other Woman

By Associated Press
Austin, Tex.—A woman sits today
in the seat of power where since the
birth of Texas only men have sat.

A kiss bestowed on the state's old-
est official bible, an oath to uphold the
laws, a promise to consecrate her life
to her state and Mrs. Miriam A. Fer-
guson, of Temple, Tex., became the
first woman governor of the United
States.

The crowd pressing against the
doors of the house of representatives
to see Mrs. Miriam A. Ferguson in-
augurated as governor of Texas was
so great that the governor's party
could not enter and the inaugural was
delayed. Officials in charge at noon
were discussing the possibility of hold-
ing the ceremonies in the stadium of
the University of Texas. No one
could get in or out of the hall.

Attempts to clear the way within
the hall so Mrs. Ferguson could en-
ter only added to the confusion. The
aisles were packed and every inch of
floor space was covered. Spectators
had commandeered seats set aside for
members of the senate and refused to
give them up when they were asked
at the door of the legislature. Speaker
Satterwhite tried in vain to make
more room to start the inaugural.

SECOND WOMAN CHIEF

In taking the oath as the twenty-
eighth chief executive, Mrs. Fergu-
son attains a political distinction held
by but one other of her sex in the
United States, Mrs. Nellie T. Ross of
Wyoming, who took office early this
month. Mrs. Ferguson, Mrs. Ross
occupies the office formerly
held by her husband.

Ceremonies elaborate as the event
is unique surrounded the inaugural.
The induction ceremony itself was
brief and simple. The program called
for a short prayer; administering of
the oath of office by Chief Justice
C. A. Cullen, reading of the Bible; the
date back to the induction of the
first governor of Texas, then the
inaugural address of the new govern-
or.

To Mrs. Ferguson, her inaugural
represented the final stepping
stone of her long endeavor to clear
her family name of the stigma of
her husband's impeachment.

She, for one, never believed the
charges of misappropriation of pub-
lic funds which were the basis for
the impeachment and during his trial
and the days of despair which fol-
lowed his removal from office she
steadfastly stood by him and en-
couraged him in his efforts at polit-
ical comeback.

**DEAD AND MISSING
NUMBER TEN AFTER
FLOODS FALL BACK**

Atlanta, Ga.—With the list
of dead and missing standing
at ten, railroad and motor traf-
fic demoralized, and a heavy
property loss sustained, the
crest of the flood which has
been acute in several southern
states since Saturday night,
Tuesday was believed to be
passing.

In southern Georgia many
streams were said to be reced-
ing. Continued rains along
the tributaries in North Geo-
rgia, however, were expected
to cause the recession to be
slow.

No estimate of property
damage was available early
Tuesday.

Fair weather was promised
Tuesday for Mississippi, Ala-
bama and Louisiana and the
streams slowly began to return
to their beds.

Every stream in southern
Georgia was out of its banks
and rivers that normally are
no wider than 100 feet extend-
ed to a width of from one to
five miles.

**IRRECONCILABLES WOULD
READ PARIS DEBT PACT**

Washington, D. C.—Secretary
Hughes declaration that the Paris
reparations agreement has left the
United States as free of European in-
volvements as it ever was, has not
lessened the desire of senate ir-
reconcilables to study the document
for themselves and lay their own
on the basis of their own conclusions.

Chairman Borah of the senate for-
eign relations committee has joined
Senator Johnson, Republican of Cal-
ifornia, author of the resolution, call-
ing for a copy of the agreement in
comment on the secretary's state-
ment showing that they still purpose
to press an inquiry into the whole
subject.

Characterizing Mr. Hughes' state-
ment as a very positive one which he
hoped would be "illuminating read-
ing abroad," Senator Borah agreed
with Senator Johnson that it was in
direct conflict with the views ex-
pressed by foreign statesmen.

In view of Secretary Hughes' an-
nounced intention of making public
the entire agreement when it reaches
the state department, the Johnson
resolution now merely calling for a
copy of the agreement may be broad-
ened in its scope when it is taken up
by the foreign relations committee.

**ASHLAND JAIL BREAKER
HELD BY GARY POLICE**

Ashland—Word has been received
here by Chief of Police William T.
Blair of the capture of Charles Flske,
an Indian, by the police of Gary, Ind.
Flske, together with George Kol-
stad, was arrested last September and
charged with the theft of about \$1,000
worth of clothing from the Resnick
clothing store here.

The men were confined in the Ash-
land county jail to await trial. They
escaped during the latter part of
September by cutting a hole in the
roof. Up to this time no trace had
been found of them. Sheriff Elmer
Sanders has left for Gary to return
Flske to Ashland.

**FARMER BREAKS BACK
BUT STILL HAS CHANCE**

Kenosha—With his back broken,
but still living, Thomas Link, 24,
farmer lies at Kenosha hospital, here
Monday. He was injured in an auto-
mobile accident when he was hurled
headlong from the driver's seat of a
tractor which was being towed be-
hind an automobile when the tractor
gaining momentum, crashed into the
car going down a hill. Link was
found to have broken vertebrae and
internal injuries. Physicians hold
out hope for his recovery, but de-
clare it will take several months.

U. S. SETTLES WAR CLAIMS OF RAILWAYS

**Practically All Cases Concluded
Without Litigation, Re-
port Shows**

By Associated Press
Washington, D. C.—Liquidation of
claims and counter claims between the
federal government and the railroads
growing out of the government's war-
time control of the carriers has been
practically completed without litiga-
tion in any case, James C. Davis, di-
rector general of railroads, announced
Tuesday, in presenting his final report
to President Coolidge.

With the original aggregate of
roads taken over finally settled down
to a total credit of \$24,647,195 for
\$768,003,274 claimed as damages by the
roads under maintenance and other items
owed by the government, the report
showed, the government at the same
time collected \$195,072,295 for ex-
penditures in excess of requirements,
making the net cost of settlement \$48-
574,901. Mr. Davis emphasized in his
report that this settlement had been
obtained without a single carrier go-
ing into court on its claims.

Two small roads in Colorado where
receivership has involved difficulties,
have not yet settled, Mr. Davis re-
ported. He calculated that the final
net cost to the government from its
wartime railroad control would be \$1-
674,500,000.

The great adventure of the govern-
ment in the field of government op-
eration of railroads as a war meas-
ure is about concluded," Mr. Davis sum-
marized, "and the liabilities have
practically all been paid."

**HOLD RACINE BANKERS
UNDER BOND OF \$5,000**

Milwaukee—William C. Hood, former
president of the defunct American
National bank of Racine, and Ed-
ward H. Freeman, a member of the
board of directors of the institution
are at liberty under \$5,000 as the re-
sult of indictments returned here Mon-
day by the federal grand jury.

Hood was indicted on fifteen counts
and Freeman on three in connection
with the failure of the Waubesa
Tea co. and the Union Food stores.
The men are charged with conspiracy
to violate the national banking act.
Co-defendants are E. Leslie Osborn,
cashier of the bank, E. W. Berry,
general manager of the food concern,
and J. D. Taplin, president of the

from disposing of any of the colony's
property, also is terminated by Tues-
day's decision of Judge White.

**Savants Will Try To

By Associated Press
Williams Bay—An attempt to pho-
tograph the phenomenon accompany-
ing the total eclipse of the sun known
as "shadow bands" will be made by
Dr. Frank E. Ross and Professor Ol-
iver L. Lee of Yerkes observatory at
Iron Mountain, Mich., Saturday.

With proper weather conditions,
Professor Lee said he believed the at-
tempt will be successful, and give to
science the first photograph of the
elusive shadow bands.

The bands are visible for about ten
seconds before the total eclipse and
for ten seconds after totality. They
are described as "vague and rapidly
moving wave-like alterations of light
and shade." Although these bands
have been noted and attempts made to
register them, nothing approaching
success has been recorded.

Dr. Ross has devised a new scheme
for mounting a battery of four cam-
eras in such manner that the instru-
ments may be made to follow the
shadow bands with the aid of a
fast lens it is probable that the cam-

**PROPOSERS OF RAIL

Washington, D. C.—Proponents of
the Gooding bill to prevent railroads
from charging higher rates for short
hauls than long hauls over the same

**CHARGE FATHER WITH
MURDER OF BABY SON**

By Associated Press
Milwaukee—Arthur O. Hauschild,
arraigned in district court here
charged with first degree murder in
connection with the death of his son
Roy, three-year-old heir to an estate
valued at \$15,000, entered a plea of
not guilty through his attorney. The
court refused to admit the prisoner
to bail and continued the hearing un-
til Feb. 3.

Hauschild was arrested Monday
night after a three-hour quiz by the
state's attorney who caused a war-
rant charging first degree murder to
be issued.

Hauschild's son, Roy, died early
last week from poisoning, according
to the findings of chemists and physi-
cians. Physicians were uncertain for
several days as to the cause of
death, and the coroner's office ordered
the most searching investigation in
the city's record to establish the facts
which surrounded the boy's death.

**CAUSE AND CURE
OF WAR SUBJECT
OF CONFERENCE**

Raw Materials of World Should
Be Open to All, Speaker
Suggests

By Associated Press
Washington, D. C.—Another round
of addresses with the causes of war
as their main theme, formed the ad-
dress Tuesday for the second session
of the conference on the cause and
cure of war. John Foster Dulles,
New York lawyer and former mem-
ber of the reparations committee and
supreme economic council, discussing
"economic motives and how they lead
to war" and Vice Chairman Culbert-
son of the United States commission,
with the topic of "raw materials mar-
kets and war," were among the list
of speakers.

In a paper prepared for the fore-
noon session, Mr. Culbertson declared
the raw materials of the world should
be opened to all peoples equally as a
step in removing one of the primary
causes of international conflict.

"Rivalry among nations or among
national groups frequently gives rise
to serious complications in interna-
tional affairs," Mr. Culbertson said.
"A nation powerful in industry, com-
merce, finance and defense would ap-
pear to be secure. But practically
this has not proved true. Evidently
permanent international security can
not be sought in temporary expedi-
ents like armaments. Rather is there
needed a set of firmly established
principles to regulate the funda-
mental economic relations of states. Com-
mercial security will be obtained only
by offering similar security and cer-
tainty to other states.

"National security and the preser-
vation of world peace depend upon
an analysis of the economic basis of
our society and the provision of
means of adjusting economic dis-
putes before they reach the state of
political differences between na-
tions."

**LORENZ IN NEW ORLEANS
AFTER MEXICAN SOJOURN**

By Associated Press
New Orleans, La.—Dr. W. F. Lorenz,
head of the state board of control
of Wisconsin, who was imprisoned
in Mexico after his fishing smack
was wrecked off the coast of Yucatan
and released only after insistent
demands from Wisconsin authorities,
arrived here Tuesday.

He came with his ten sailors on
the steamer Antilla from Progreso,
Mexico.

Failing health forced Dr. Lorenz
to leave his home in Madison several
weeks ago and he sailed on the schooner
"The Ruthi".

On Jan. 9, the schooner struck a
reef off the Yucatan coast and the
crew abandoned the boat and
took to Doris. They were sighted
by a Mexican warship and picked up.
They were thrown in jail at Progreso.
For two days they had no food.
The water given them had been used
by the dogs and donkeys. Some of
the crew were taken before a Mex-
ican judge, tried on charges they did
not understand and sent inland to a
prison.

Dr. Lorenz got word to the Amer-
ican consul at Progreso who sent
messages to the United States. Im-
mediately demands were made by the
federal and Wisconsin authorities
for the release of the men. As quick-
ly as their identity was established
Dr. Lorenz and his men were freed.

**BALANCE FARM OUTPUT
WITH DEMAND, HOOVER**

Washington, D. C.—A national pol-
icy aimed toward balancing Amer-
ican agricultural production and con-
suming power would offer, in the
opinion of Secretary Hoover, the best
assurance of prosperity for the Amer-
ican farmer. The secretary said
before the president's agricultural
commission Monday, Mr. Hoover de-
clared the present exportable sur-
plus of agricultural products tended
to hold the price received by the
American farmer down to the world
level.

Reduction of output and stimulation
of domestic demand for products of
which there is now an exportable sur-
plus and adequate tariff protection as
to imports were presented by the
secretary as the two essential steps in
the policy advanced.

**HOLD FATHER AFTER 5
CHILDREN DIE IN FIRE**

Elk River, Minn.—The burning to
death of the five children of Frank
Bedoch will be further investigated
Tuesday by county authorities who
are holding Bedoch without charge on
the recommendation of a county jury.

Should the fact warrant, County
Attorney Robert A. Hastings stated,
a charge of murder would be placed
against the father. The children met
death Sunday when their crude farm
home near here was burned to the
ground. Mr. and Mrs. Bedoch escaped
with painful burns but said they were
unable to save any of the children
all under seven years of age.

BILL PROVIDES FOR CHANGE IN FIREARMS LAW

Senator White Introduces Meas-
ure to Have Open Fishing
Season All Year

WOULD BAR ICE FISHING

Dane-co Lawmaker Proposes
New Judgeship in Ninth
Judicial District

By Associated Press
Madison—Wisconsin's opposition to
the diversion of water from Lake
Michigan by the Chicago Sanitary
district is expressed in a joint resolu-
tion which Thomas M. Duncan, Mil-
waukee, Socialist assemblyman, an-
nounced Tuesday he would seek to
have adopted by the legislature. The
resolution is similar to one which has
been adopted by the Michigan legisla-
ture at the suggestion of the recent
Great Lakes harbors convention at
Cleveland, Mr. Duncan said.

Senator Bernard Gettelman of Mil-
waukee introduced a bill to change
the present firearms law. This would,
if passed, provide a term of imprison-
ment of 364 days, one less than a
year, or a fine of \$500 for all per-
sons convicted of carrying concealed
weapons.

The operation of the present law
bring only fines of \$25 and costs in
Milwaukee, Senator Gettelman says,
and this has been the practice for
more than 12 years. The bill he says,
is aimed especially at carrying of
arms by youths. Senator Gettelman
also has a bill which would prohibit
ice fishing in Wisconsin lakes.

Much waste and excess in the fishing
are given as reasons for the introduc-
tion of the bill.

A bill introduced by Senator Harry
Sauthoff of Dane-co would create an
additional judgeship in the ninth Ju-
dicial district, Dane-co and provided
for salaries of judge and court report-
er in connection with the new court.

INSPECT PULPWOOD

Senator Titus, among other bills,
introduced one for sterilization of
whey and other byproducts at cheese
factories. Another bill by Senator
Titus provides for inspection of pulp-
wood.

Senator M. F. White introduced a
measure declaring there be no closed
season for hook and line fishing ex-
cept for large and small head bass,
sturgeon and trout in the waters of
Lakes Winnebago, Buffalo, Puckaway,
Poygan, Winnebago, Big and Little
Butte des Morts and portions of the
Fox and Wolf rivers.

The recall bill of the last legisla-
ture was up for a second passage in
the legislature as well as other meas-
ures brought over from the last ses-
sion. One of the important measures
introduced in the senate was for the
creation of a judicial council of seven
members, comprising a judge of the
supreme court, a circuit judge, a
county judge, the attorney general,
the president of the Wisconsin Bar
association and chairman of the judi-
cial committee of each branch of the
legislature. Under the bill this coun-
cil would make a continuous study of
organization rules, operation and
practice of the judicial system.

The child labor amendment ratifica-
tion resolution of Senator Padway
was sent to the committee on labor,
agriculture and industries by the re-
siding officer of the senate. The as-
sembly resolution memorializing con-
gress on Muscle Shoals was referred
to the committee on labor.

COAT THIEF IS SENT TO PRISON FOR 2-YEAR TERM

Companion is Wanted in Menasha for Complicity in Theft of Wire

Frank Ballas, 23 railroad employe of Kimberly, who was caught stealing overcoats and other wearing apparel from the coatroom of the Eagle bowling alleys Sunday afternoon, was given a sentence of two years in the state reformatory in Green Bay Monday afternoon.

But when Ballas steps out of the reformatory in 1927 an officer probably will be waiting to conduct him to Menasha for trial on a charge of theft committed there Joseph Schlitz, Kimberly, a companion of Ballas Sunday also is implicated in the same theft which concerns a quantity of insulated wire.

Schlitz is the man who was freed by a jury in circuit court here recently on a manslaughter charge following the death of Ben Clatsen who was knocked down from his motorcycle last summer by a car driven by Schlitz.

GUILTLESS HERE

According to Appleton police, Schlitz had no part in the garment theft at the Eagle alleys Sunday. A third man who was with Schlitz and Ballas has been identified by the police, but also has been exonerated here, but also has been exonerated here, but also has been exonerated here.

Ballas showed symptoms of remorse when aligned before Judge A. M. Spencer in municipal court Monday. He said that up to about two months ago he had never stolen anything. He did not know how to account for his recent acts of out-lavry.

PAYS FOR SPECTACLES

He said that pay was due him from the Chicago and Northwestern railway and that this money could be used to pay for the stolen spectacles which he had broken.

He has a father living in a small Wisconsin city, but his mother is dead. The only personal property outside of his wearing apparel that he claims is a Ford touring car. He suggested that the car might be turned over to his father, but that he was not actually in need. It was directed that the car be sold and the proceeds be credited to his account until his release from the reformatory.

Ballas was caught in the act of taking clothes out of the Eagle hall coat room by W. Williams, a Green Bay bowler who put up a fight with the thief in order to return his property. The man had taken two overcoats and a bowler's carrying case. All of the property was recovered but the glasses were broken. Schlitz and a friend were at the store at the time and had agreed previously to meet at Ballas' automobile.

ARGENTINE MAKES NEW LABOR LAWS

South American Republic Sets Limits to Working Day of All Classes

By Associated Press

Buenos Aires—Eight hours' work for women, 6 hours for persons of both sexes under 18, two hours for lunch and no work six weeks before and after child birth are enforced, among other things, under a law enacted by congress, regulating the working conditions of women and of persons under 18 years of age in Argentina. The new legislation supports the principles regarding maternity adopted in the Washington International Labor Conference of 1919.

According to the terms of the new law, children under 12 years of age cannot be hired for any kind of work nor those of a school age who have not completed their obligatory school curriculum. Boys under 14 and unmarried girls under 18 may not engage in any occupation which must be done on the streets or public places. Women workers over 18 are not allowed to work more than 8 hours daily, 45 hours weekly, while workers of both sexes under 18 cannot work more than 6 hours a day or 26 hours weekly.

Night work is prohibited for women and persons under 18, except in the cases of nurses and domestic servants but girls over 18 may work at night in public performances. Women and persons of both sexes under 18 are not allowed to do home work for their employers and are not permitted to engage in dangerous or unhealthy occupations or to sell alcoholic drinks.

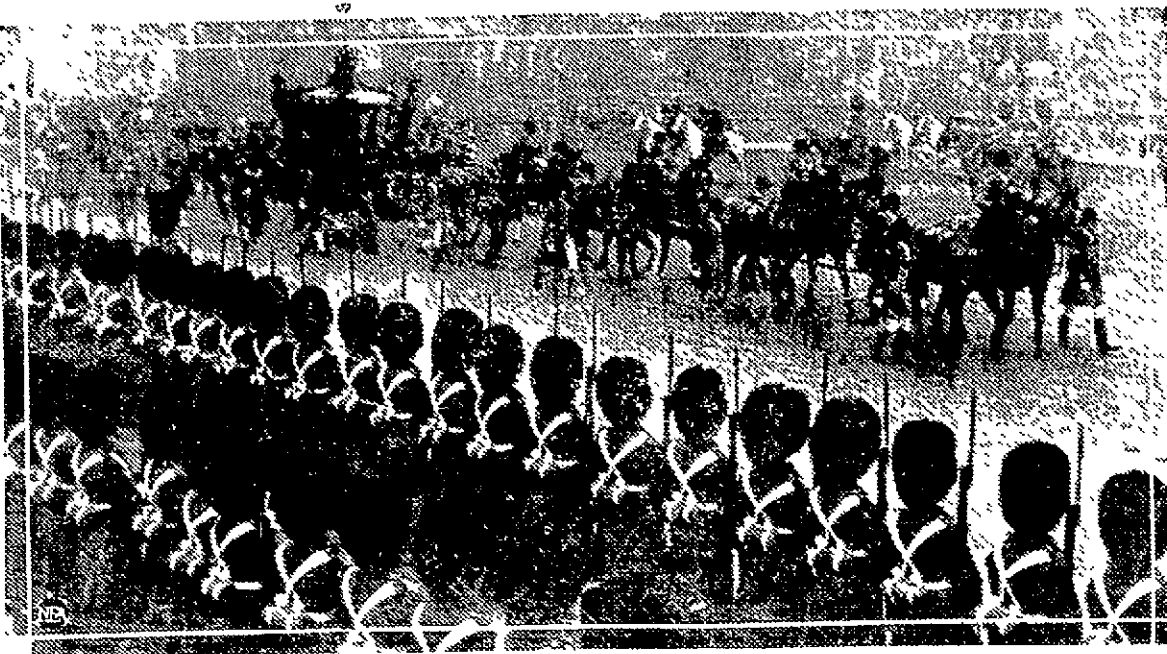

PEARL FISHERS ACTIVE ON RIVER IN ENGLAND

By Associated Press

Strathgry, Eng.—Fresh water pearl fishers may be seen daily at work in the waters of the river Palasy seeking the mussel shells that occasionally conceal pearls. They use a tin can with the cotton removed and a blue substance for locating the shells in the river bed, and a long V-shaped stick at one end for balancing the shells to the surface. Occasionally a gem of value is obtained, one was recently sold to a jeweler for \$100.

MEXICO WELCOMES GERMAN VISITORS

By Associated Press

Hamburg—One thousand German business men, industrialists and scientists are visiting Mexico during 1925 at the invitation of the Mexican government, acting through the consul-general at Hamburg. The purpose of the visit is to reestablish and extend friendly relations between the two countries, and to give the Germans an insight into the customs and institutions of the Mexican republic.

The Mexican government promises the visitors all possible facilities for transportation on the Mexican railway ways is to be free of charge. Pull man cars in which the visitors can sleep even when a stop of several days free disposal of the Germans. There are to be instructive lectures, visits to industrial plants and scientific institutions, lunches and banquets by various Mexican chambers of commerce, and official receptions. German merchants bringing samples of goods with them are to have these admitted free of duty.

PLANES USED TO CARRY FREIGHT

By Associated Press

Stockholm—A regular commercial express and freight service by air to neighboring countries is the latest development in the use of airplanes here. The freight service has actually started over the line between Stockholm and Helsingfors, Finland, and thus augments the air traffic between those two countries, which has hitherto been limited to passengers and mails. The distance to Helsingfors is about 240 miles across the Baltic Sea, a good day's run for a small steamer. The peculiar utility of air shipping was demonstrated by the fact that the first cargo carried half a ton of medical supplies which were delivered in Helsingfors three hours after being taken on board here.

It has been announced that next spring express and freight shipments will be carried to Copenhagen and Hamburg direct, with air connections for Berlin, Paris and London.

ENGLISH ABANDON PLAN TO CULTIVATE TOBACCO

By Associated Press

London—England will never be a tobacco growing country unless the present tastes of tobacco users change. The committee of the treasury has pointed to inquire into the tobacco industry and to report on the possibility of growing and marketing the lush tobacco said in its report that English tobacco has a distinct flavor which is foreign to the acquired taste of the consumer and therefore rarely appreciated by him. The trade in fact, could never be profitable. The committee does not recommend any further expenditure of public funds toward attempting to build a large tobacco industry in Great Britain.

HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your congested nostrils open right up; the air passages of your head clear and you can breathe freely. No more hawking, sniffling, blowing, headache, dizziness. No straining for breath at night. Your cold or catarrh disappears. Get a small bottle of 223's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It is just fine. Don't stay stuffed up with a cold or nasty catarrh. adv.

GMEINER GOES TO MADISON TO CHANGE FISH LAW

Outagamie Association Wants to Repeal Law Banning Fishing in Fox

Walter H. Gmeiner of Appleton, is representing the Outagamie County Fish and Game Protective association at the twelfth annual convention of the Wisconsin Game Protective association Tuesday and Wednesday at Madison. Mr. Gmeiner will take an important part in the work and will lead the discussion on reports of club activities and work on Tuesday night. Dr. J. A. Holmes of this city, president of the association, called the meeting to order and delivered the "keynote" address. Two important measures which will be brought up will be strongly supported by Mr. Gmeiner. A move will be made to repeal the law which prohibits hook and line fishing in the Fox river and Lake Winnebago except between March 1 and June 1. Formerly these waters had an open season for hook and line fishing the entire year and the Outagamie association would like to have this plan brought back. The other move strongly advocated by the county group will be the repeal of the law which states that there should be no limit on the size of game fish. By this law a "muskie" weighing anywhere from one half to fifty pounds can be retained, and the association is strongly opposed to this as offering no protection for the fish.

Among the important speakers will be Elmer S. Hall, state conservation commissioner, Burt Williams, president of the Land O' Lakes association, Clyde B. Terrill, specialist on the development of beautiful places for birds, game and fish; Fred Luenning and Edward L. Kelly.

Council Meeting

A regular meeting of the common council will be held in the city hall at 7:30 Wednesday evening, at which pending business will be transacted. The meeting held five days ago was an adjourned one and was called for the purpose of acting on bids on snow removal machinery. Most of the bids have been rejected, however, and no contract has been awarded.

NEW NUMBERS MUST BE UP BY FEB. 1

Notices have been sent out from the postoffice Tuesday to all its patrons informing them of the postal order that residents must display the proper house number in order to benefit by the city delivery service. According to a decision of the common council all houses must be numbered by Feb. 1. Those who fail to comply subject themselves to the possibility of having their mail service withdrawn. The postoffice has requested that both the old and new numbers be left on the house until Feb. 1, after which the old numbers are to be taken down.

PASSING SHOW OF 1925 IS CALLED BEST SEEN HERE

Boy Scout Musical Revue Ranked With Big City Productions

"The Passing Show of 1925," the elaborate spectacle which is being produced by a cast of more than 100 actors for the benefit of Boy Scouts of Appleton and Kaukauna, was presented before a small but enthusiastic crowd in Fischer's Appleton theater Monday evening. The production is deserving of much more support than it has received. It is comparable with the best musical shows seen in Appleton and the big cast does its work like a troupe of professionals.

It is a play of typical Banister excellence. Every detail has been attended to, the ten big scenes follow each other in rapid succession with none of the long waits which audiences have come to associate with "home talent" productions.

SPLENDID SCENERY

Costumes, scenery and lighting are of the best and present an effect seldom seen in cities the size of Appleton. Altogether it was a performance that is worth every cent asked for tickets. Boy Scout promoters here are hoping for a capacity audience Tuesday night, the last time it will be shown here.

Picking out the "high spots" of the performance is a difficult task and is largely a matter of personal prejudice and judgement. It was evident, however, that the scenes which went over biggest were the white ballet in which more than a score of girls took part, the Apache dance by Dorothy Adst and Bernard Bonini, Marchetta, featuring Ruth McKennan, Anna Keller, Harold McGowan and J. M. Van Roy, and "The Armistice" in which Mark Catlin, J. E. Murphy, George C. Dame, Clarence Weiss, Alois Lethen, Max M. Bauer and George Schultz took the parts.

Other big acts were the Oh Susanna dance, Auld Lang Syne, Rosita choros featuring J. M. Van Roy, South American Argentine dance, Fandango, Tea for Two, and the fencing girls.

It is a colorful production, with many elaborate costumes. The ten big acts are largely taken from stage successes of the current year and are produced with all the excellence which made the original productions huge successes. An orchestra of a dozen musicians under the leadership of Edward Mumm added much to the attraction of the production.

\$282,000 PAID TO TREASURER ON 1925 TAX ROLL

Tax Collections Have Averaged \$17,112 Daily Since Dec. 29

Tax collections in the office of Fred D. Bachman, city treasurer, have averaged \$17,112 a day since the opening of the collection period on Dec. 29. The total collected up to the close of the office Monday night was \$282,451.50. The largest day's collection was \$32,410.37, which was on the third day, while the smallest collection was \$9,566.72, which was on Saturday forenoon, Jan. 3.

The office has been open fifteen full days and three half days. No collections are made on Saturday afternoons, but the office is open every Monday evening from 7 to 8 o'clock during January. But ten days remain in which Appleton taxpayers can settle their accounts with the city, county and state without incurring the 2 per cent penalty which will be inflicted after Jan. 31. During those days the city treasurer must collect a million dollars, for the tax warrant includes about \$1,300,000.

The treasurer is not worrying, however, for the average daily collections have been quite satisfactory. A large number of taxpayers have been served, but the individual amounts were rather low. The biggest individual amounts will begin to come in the last week in January. A number of the bills amount to \$25,000 and more. On the last day of January last year, Mr. Bachman collected a total of \$455,000.

Although real estate, personal property and income taxes are being paid rather promptly, dog owners are slow to obtain dog licenses. Thus far the treasurer has collected taxes only on 130 dogs. The total for the city is nearly 700 dogs.

AUTOMOBILE AND STREET CAR FIGURE IN CRASH

A Ford coupe owned and driven by August Schmidt, living on state trunk highway 47, was damaged when struck by the 1015 interurban car at the corner of Oneida and Franklin-st. Tuesday morning.

The automobile was headed west on Franklin-st and had stopped for the arterial highway sign. It started ahead of the street car. The right front wheel was broken and a fender was bent. The automobile was swung around so that it struck a telephone pole in front of the Beyer funeral home on Oneida-st.

It Happens Every Day

When you're sure that everything is under control and going well in the kitchen and then, without any warning, your cook develops a sudden attack of temperament and marches out one afternoon just before dinner time—

And you have to "jump in" and get the meal and then your husband comes home and dinner isn't ready and he has to set the table and help with the dishes afterward and you both feel as though civilization had slipped back a couple of ages—

And this goes on the next day—and the next—even though you're looking everywhere for a cook, and at the end of the week your husband throws down his dish-towel and says "We simply can't go along this way any more—we've aged five years in the last five days!"

And then suddenly you have a rejuvenating idea and step to the phone and give The POST-CRESCENT a Help Wanted ad.

And the next night the new cook—that you picked from the half-dozen who answered your ad—is on the job—and you and your friend husband, have nothing to do but dress for dinner—

STAGE AND SCREEN

COLLEEN MOORE IN STRONG ROLE

Colleen Moore—the Colleen of the pouting, capricious flapper ways—has found a new meter in screen characterization. It is portrayal of mother-love.

Colleen's newest vehicle, "So Big," which opened yesterday at the Elite theatre, gives her the first chance of her career to portray a mother.

It is the more exceptional in that it presents her both as a young mother and in middle age.

As Selma Peake De Jong, Colleen's role in "So Big" covers the gamut of heartaches and sacrifices a mother makes in bringing her fledgling safely through to the harbor of serene manhood. These sacrifices are

the structure by which the action "So Big" is developed.

Supporting Miss Moore in her severe undertaking is a cast of character players of fine repute, such as John Bowers, Wallace Beery, Ford Sterling, Dot Farley, Jean Hersholt, Sam De Grasse, Gladys Brockwell, Rosemary Theby, Phyllis Haver, Charlotte Merriman, Henry Hebert, Baby Dorothy Brock and Frankis Darro. The part of her son is played by Ben Lyon.

Charles Brabin whose reputation was gained in dramas of this type directed the picture, under the supervision of Earl Hudson, for First National.

"So Big" is an adaptation of the novel by Edna Ferber, one of the year's best sellers. It is woven around the growth of Chicago in its early days.

BETTY BLATHE IN STORY OF ACTION

"How Women Love," is the story of a girl who promised not to fall in love. Of course, she couldn't keep her promise—what girl could? But this girl, particularly, couldn't. She was young. She came to New York from Italy. She had a wonderful voice. She had everything to make a man love her—and when the right man came along, naturally she fell in love with him.

Betty Blathe, "the best looking and best dressed star on the screen," plays the delicious role of this temperamental prima donna. The picture, which comes to the New Bijou Theatre Wednesday and Thursday, is said to reveal again her talent and her beauty in a way to disturb all

men who have eyes and all women who have husbands. Miss Blathe is undoubtedly one of the most attractive of screen stars, and her role as a woman who wears marvelous clothes, gets into temperamental furies and tender calms, gives her full scope of display one of the most fascinating of screen personalities.

"How Women Love" was adapted by Dorothy Farnum from 'The Dangerous Inheritance,' by Izola Follen, and was directed by Kenneth Webb.

BLOOMINGTON MAN IS COLLEGE CLUB TREASURER

Cliff R. Ralsbeck, Bloomington, was elected treasurer of the All-College club to fill the vacancy caused by the graduation at Christmas of Jyla "Jud" Clark. The primary election resulted in the nomination of Ralsbeck and Austin Schraeder, Marro-can, and the finals were 256 to 246 in favor of Ralsbeck. He is a janitor and a Sigma Phi Epsilon.

STEELE IS SPEAKER AT RETAILERS' MEETING

J. D. Steele, president of the Pettibone Peabody company, will speak Wednesday afternoon at the annual meeting of the Wisconsin Retail Dry-goods Merchants convention in Milwaukee. The convention opens on Tuesday. Mr. Steele will speak on the retail drygoods trade.

Cold in Canada

Dr. and Mrs. Herman Schaper, formerly of Appleton, are experiencing rather cold weather during their visit in Tudor, Alberta, Canada. Although it was only 16 degrees below zero at that locality last Wednesday, 50 miles from there the thermometer registered 68 below, according to word received from them by Appleton friends.

RUSSIA'S BUDGET THREE TIMES AMOUNT OF TRADE

Moscow — Soviet Russia's budget for the coming year amounts to \$1,500,000,000, but its income from state industry and trade is only \$5,000,000. During the first eight months

of this year only \$3,500,000 of this sum was realized, of which industry contributed a profit and \$2,100,000 and trade about \$1,400,000.

These revenues, small as they are show a slight improvement over those of last year and are derived principally from the export of grain and the production of sugar and oil.

New Discovery Limbers Up Stiff, Sore, Swollen Joints

Soaks right into tendons and ligaments of your joints—right where the trouble starts—Then blessed comfort comes quickly

Yes, it's true—the world progresses. All you have to do nowadays to limber up that stiff, rusty knee joint is to squeeze a half inch of miracle working substance from a tube.

Then rub it on the offending part for about a minute or until it soaks through the skin and disappears on its errand of mercy.

Then read the evening newspapers and go to bed.

The chances are that your misbe-having knee joint will lose its "creak" while you are dreaming about the high fences you used to leap when you were a youngster.

"And in the morning," says one who has tried the new discovery, "you'll feel so happy that you'll want to jump into your sportiest clothes and walk briskly down the street just to show the neighbors that you are not as old as they think you are."

Joint-Ease they call this wonder-working substance, for the reason that when ordinary remedies fail to limber up the stiff, inflamed rheumatic joint, or reduce the swelling, Joint-Ease succeeds.

It's a good name for a good, clean, penetrating prescription that in just a few months has proven to a multitude of people that lame, swollen, distorted joints can speedily have the kinks taken out of them and work as smoothly as ever.

But Joint-Ease is for bothersome joints, whether in knee, ankle, arch, hip, shoulder, spine or finger, and that purpose its sale at 50 cents a tube is immense.

Vogt's Drug Store, Schlitz Bros. Co., has a big supply of it and drug-gists everywhere report a big demand. Always remember when Joint-Ease gets in joint agony gets out—quick.

MR. COOLIDGE ON NEWSPAPERS
Mr. Coolidge gave a talk to the American Society of Newspaper Editors at Washington, which was a tribute to the American press and which also revealed a clear insight of the newspaper as an institution. He emphasized two or three facts about journalism which were of peculiar force and which, he was free to add, applied to the newspapers of this country. His first admonition was the avoidance of propaganda, which presents but one side of a question, no matter what its character, and which generally violates the truth or distorts the information it conveys. All of the organs of propaganda in the United States, as well as in other countries, are either purposely selfish and dishonest, or so over-zealous in the cause they seek to advance as to be prejudiced. Much of the propaganda is openly paid.

Mr. Coolidge dwelt upon the evolution of the American press to its present position of independence. He approved the independent newspaper and conceded its value over the old party newspaper of the past. He believes an independent newspaper best fulfills its obligations to the public, and is fairer and more sincere in its judgments and criticisms than a party newspaper can possibly be. This is characteristic of the president, who is less partisan than most of the presidents who have preceded him and whose independence is well known.

He also urged newspapers to conduct their news and editorial columns apart from their business office, and this, we believe, is being done to a far greater degree in the United States today than ever before. There are very few newspapers in the country of standing against whom the charge can be made that their news or editorial policies are influenced in the slightest degree by commercial considerations.

The president gave as his opinion that the newspapers in the United States were the best in the world, and that they possessed in the main the virtues which he extolled and which he held to be essential to the permanent success of the newspaper as a business as well as of journalism as a profession. His address was a high compliment to the American press and one that will commend itself to publishers as well as to the public.

POPULAR PROHIBITION

The state of Illinois has passed an oyster prohibition law. The humble oyster, in its raw state, has been banned as a vicious typhoid carrier. No hotel or eating house or restaurant or railroad can sell an oyster. No dealer can import one except en route to another state.

Very few people in Illinois will try to break this prohibition. They will appreciate it for their own good and dictated by the wisdom of health authorities who know a great deal more about the epidemic danger than they do.

In other words the oyster prohibition law will be respected.

Illinois has another prohibition law which it does not respect. This law was imposed by the national government to meet certain evils more serious in the long run than typhoid oysters, evils which have attacked not only bodies but souls. In the city of Chicago and other places, despite all the authorities can do, people in great numbers continue to buy their booze. Much of it probably a far larger percentage than that of the infected oysters to the oyster supply as a whole, is poisonous, corroding the digestive apparatus and eventually killing the person who indulges.

If churches and prohibition agencies would thoroughly plumb the causes why a prohibition of oysters is approved and one of intoxicants violated and flouted; if they would apply their findings in an educational campaign not only to inform people of the epidemic danger of law violation but of the well known effects of alcohol on the genus homo—possibly there would be less work for the policeman and the undertaker.

THE ATHLETE'S LIMIT

Paavo Nurmi, the world's eighth wonder, is visiting the United States and shattering one world's record after another. Something is in the heart and sinew of this slim Finlander which the Maker has vouchsafed no other man on earth—an endurance unbelievable, so far beyond that of all other runners we are accustomed to hail as great that they finish their races, time and again, laps behind him.

Probably the medical world, however, will take a scientific interest in the future history of Paavo Nurmi. With the tremendous heart enlargement and demand for exercise which his system of life have created, even a Nurmi may discover some day that he has passed, without knowing it, the human limit. The other day Benny Leonard, champion lightweight boxer of the world, abandoned the game and did so partially because he had discovered that his health suffered after each grueling contest. The strain of a postseason football game—which Yost and other coaches, incidentally, have forbidden because of the difficulty and peril of keeping men "keyed up"—held Jim Crowley, famous member of Notre Dame's football "four horsemen," flat on his back in a western hospital.

Instances of this sort, proving that no physique is invincible under the handicap of overdoing, are particularly worthy the attention of high school athletic authorities controlling the training of eager but immature contestants. It has long been a question whether the mile run, for instance, has any place in the public school competitive curriculum.

TARIFF ON YOUR SHOES

The president's agricultural commission has made its report recommending a tariff on hides to protect the American cattle raiser. Wheat is selling higher in Winnipeg than in Chicago under the beneficent provisions of the existing tariff, but nothing in the way of facts bothers the believer in an excessive duty as the cure-all for farm ills.

A strenuous attempt was made to include tariffs on hides and leather in the tariff act of 1922 at 15 per cent, which would immediately, by the frank admission of the shoe men at the hearing, have cost the American user of footwear \$75,000,000, due to the rise of price to the new level set by the duty. In one of those rare efforts at self-control which occasionally distinguish the tariff making agencies of our government, these commodities were kept on the free list. There they should stay. The farmer would gain no more from a tariff on hides than from a tariff on wheat—and he would pay dearly when he shod his children.

A peculiarity of the tariff on hides as reflected in the price of shoes is that it hits the farmer hardest of all, not the rich man. The farmer's shoe, both upper and sole, is turned out of the hide of a cow or steer and is thus doubly taxed; the rich man's with its kid upper is taxed only on the sole.

NAPPIN' TIME.
THE grapples pulled out the whole house is quiet. A pin drop could easily be heard. A short time ago was the whole place a riot. It's certain that something's occurred. The doorbell's stuffed so it simply can't ring. All's silent now to rap. What is it that all of this quiet can bring? What, baby is taking a nap.
The wee little baby is tucked into bed, and is buried in slumberland deep. Of all sorts of noise mother has a strong dread since she's rockabed baby to sleep.
The care of a youngster, of course, is a strain but you'll always find mother on tap. She's surely entitled to rest she can gain when the tiny tot's taking a nap.

ENCOURAGE THE WILL TO LEARN.

Hokum is a word not yet defined in dictionaries, but a perfectly good and necessary word nevertheless. It was invented by some one in the theatrical business: It expresses bluff, deception, chicanery, make believe and hypocrisy. It is a most useful word, for it applies to so much in modern life. You can crush some evils with ridicule, but not jazz. An attempt to ridicule jazz would be a total loss for jazz is itself open derision of popular taste. Jazz will have to burn itself out.

Teachers and physicians generally agree that the recognition of various physical defects by periodic routine medical inspection or examination of pupils in school, and the removal or alleviation of these defects by proper treatment, bring about a higher average of proficiency in study. In other words, there is no question that physical deficiency or impairment of health lowers the individual's capacity and will to learn. Even state educational authorities now admit that there is some truth in this, for as a rule they place no great obstacles or impediments in the way of periodic routine school medical inspection.

If physical condition or the state or standard of health were measurable in degrees or points, as is a student's knowledge of history or physics, and I believe health can be so rated, the average individual who is considered perfectly well would get a mark of perhaps 85 to 90 per centum, and such a student as a decreaser of health or functional spinal curvature or a running ear would be penalized eight or ten points, so that many neglected defectives would fail to pass.

Taking 70 as the minimum passing standing and 85 as the average health mark, it would still be feasible to boost the average health mark to 90 or above by a fair and reasonable amount of health instruction and physical education in the regular curriculum. And with the higher physical efficiency which honest physical education produces, the health plus which is attainable through intelligent cultivation of potentialities which are too often permitted to remain dormant, or through vicious unscientific influences diverted into wrong channels, there goes a greater will and capacity to learn. This corollary of educational authorities have not acknowledged in the common and high school schedules or courses, which invariably slight physical training. When a youth is fit his brain is capable of better function. It is just plain bokum to pretend that you can keep a youth fit with two half-hour periods or half hearted gymnasium work a week.

QUESTIONS AND ANSWERS.

Please advise me if there is any danger attached to removing moles. I have heard that if hairs grow in a mole it is safe to remove the mole. (Miss T. M. F.)

Answer.—It is nearly always safe to have a mole removed by a physician, but dangerous to attempt amateur surgery or to permit any one other than a competent physician and surgeon to attempt it.

I am 18, 62 inches tall. My sister is 20 years old and 5 feet 4 inches tall. How much should we weigh? (Miss E. G.)

Answer.—Two hundred and forty-eight pounds, which you may divide between you, giving sister the larger share—she should weigh 10 pounds more than you.

Just as a Father Feels.
To settle an argument, please tell us which color, blue or pink, is for boy babies and which for girl babies. (Mrs. C. M.)

Answer.—That is one of those questions which, no matter how I answer, leads only to another argument. I tried pink for boy babies quite a spell ago, thinking how father is usually tickled pink about it, but it was no go. The way they abused babies, because that's the way a father generally feels if it is only a girl after all—and they abused me even more about that. So I decline to testify on the ground that it is absolutely impossible to please all tastes. Have it any shade you feel is appropriate. Perhaps a good way out of this predicament would be to compromise on orchid purple—that's the way so many folks seem to feel about the arrival of a baby.

Plea For Miss Morgan
Editor Post-Crescent: May another spectator of the school drama ask a few questions and per chance express an opinion?

Why was not Miss Morgan continued as our city superintendent? So far as I can learn she has never expressed any feeling of incapacity, or disinclination to continue in the position, with the new Junior high school in operation, or even with the districts united in a Union system. Of course, the prospect of becoming embroiled in an undignified hairpulling over what had evidently been expected to ripen into a nice juicy plum, may have induced a resigning "attitude." For Miss Morgan has worked faithfully for the good of Appleton and its schools for many years, not for money and power and again more money and more power, but for service.

She and Mr. Kellar were informing themselves about Junior High and advocating them for Appleton, when some of the principals were Freshmen. The planning of them and for them has added heavily to the superintendent's work, already heavy with the innumerable reports for the state and other office duties. Now that they are all planned for, just where does this sudden and imperative need for a man's brawn and superior (?) brain, and taking ways (when it comes to salary) come in? Let us check up.

The Union school system didn't win so the Districts will need no more Superintendent than before, less in fact, by the loss of the two upper grades. And the Union system may never win now after such a spectacle. Experienced men have been hired to head the Junior Schools, which was naturally to be counted on—before a superintendent was chosen. It is likely our up and coming board of education committee on teachers and texts has also engaged janitors for the new schools and will have an efficient high school principal, at a rising salary, engaged over night. With all this manual and executive force amply provided for by the Board of education and the Text books, also under their management, where is all this tremendous need of a super man, all at once for superintendent?

No new children, no new grades, no new studies. Only a regrouping into 3, instead of 2 divisions of the 12 grades, and the new group, seventh, eighth and ninth grades sitting in a different place than hitherto. As Miss Morgan, by reason of her experience, easily knows more about all the grades, from the Kindergarten through high school, than all the rest of them put together, and has also made a study of the inaugurating of the Junior High school group, is it not natural that she is better fitted than anyone else to supervise the adjustment?

Miss Morgan is a clear and concise thinker, a lucid speaker, and an efficient executive. She could just as well use some of this augmented salary to hire enough office help to enable absence from the office for "sitting and to buy the filver needed to visit these city schools located in the country, as for a green superintendent to do so.

Perhaps the board of education will have to elect a City Superintendent legally in June.

Insurance Not Spur To Suicide

(James V. Barry, in Insurance Field.)

In nearly all suicide claims presented there is little or no evidence that the insured, at the time of making application for insurance, had any intention to commit suicide and thus defraud his fellow policyholders.

By way of demonstrating this lack of intent in may be said that during the year 1923 on regular ordinary business, the disbursements of one of America's largest insurance companies in suicide claims aggregated \$538,460, the number of deaths involved being 207. Of this total number of deaths only 18 were on policies in force less than one year, and in 14 of these deaths claims were settled by the return of premiums paid. Policies in force five years or more represented 118 of the 207 suicide cases. There was, of course, no intention to commit suicide at the time these policies were applied for.

Careful investigation further discloses that there is no evidence produced by a review of homicide claim payments over the period of the last 12 years to show that the existence of insurance on any life was an incentive to homicide. In 1923 the company above referred to paid a total of \$723,788 in homicide claims, this being 12 per cent of the total of all claim payments.

It is gratifying to know that during the last 12 years there has been a gradual decline in suicide cases, not only among policyholders of insurance companies, but also in the general population. Improvement in the homicide death rate has also been observed during this period.

AT THROTTLE 50 YEARS

Engineer John Diehl, 70, of Laporte, Ind., after half a century in the cabs of New York Central locomotives, has made his last run.

He had piloted practically all of the road's crack trains. For 13 years he was at the throttle on the world famous Twentieth Century Limited between Chicago and Elkhart, Ind. In 1916 he established a record, for this distance, making the 101 miles in 99 minutes.

In all his service, a passenger nor member of his crew was ever hurt. He was, however, injured himself several times.

J Who was the fattest man who ever lived? G. C. C.

A Miles Darden, who at the time of his death in Tennessee in 1857 weighed more than 1,000 pounds, is said by some authorities to be the "largest man of whom there is any record. He was seven feet six inches in height, and at the age of forty-seven weighed 871 pounds. He was 59 years old when he died.

Q Did the Young Men's Christian Association originate in this country? A. C.

A The first Young Men's Christian Association in America was originated in Montreal in 1851.

Q Do German Police dogs grow crows as they get old? G. W.

A German police dogs, while they do not seem demonstratively affectionate, are staunch and loyal and guard themselves with quiet dignity which is equaled by few other breeds. Many dogs in old age become snappy and cross, but police dogs do not have this tendency any more than dogs of other breeds.

Q Would gasoline as a wash hurt the body on a car? E. E. H.

A It is not advisable to use gasoline as a cleaner on an automobile. It is a solvent and will remove any grease or dirt that can not be removed by clear water and pure soap. Gasoline will tend to dull the finish of the automobile.

Q How much do hen eggs weigh? J. McEl

A The Department of Agriculture says that there is no Government standard for the weight of an egg as the weight varies considerably. However, eggs that are of a good average size usually weigh 21 ounces a dozen; smaller eggs weigh as low as 18 ounces a dozen and some exceptionally selected give eggs weigh 22 ounces a dozen.

Music Club Celebrates Founders Day

Founders Day will be celebrated by the Wednesday Musicals club Wednesday afternoon to commemorate the tenth anniversary of organization of the club. Luncheon will be served at 1 o'clock at the home of Mrs. S. W. Murphy, 493 College-ave. after which a musical program will be given, interspersed with letters from former members who have moved away from the city. Former members who are still living in Appleton will be guests of the club.

The Wednesday Musicals club was organized in January, 1915 and of the charter members five still retain active membership. They are, Mrs. Mark Catlin, Mrs. E. E. Dunn, Mrs. E. A. Morse, Miss Ann Thomas and Mrs. Emil Voecks.

PARTIES

The annual party given by the parish of St. Joseph church for ushers and members of the choir was held Monday night in St. Joseph hall. Supper was served, followed by cards and a smoker.

Mr. and Mrs. Joseph Konkle, Gopher Hill, were surprised by a number of friends and relatives Sunday evening. Cards and dancing furnished entertainment. Those present were Mr. and Mrs. Alvin Carr, Mr. and Mrs. Patrick Murphy and family; Mr. and Mrs. Earl Smith, Mr. and Mrs. Robert Murphy and family, Verna Coffey, Helen Fox, Mabel Smith, Mildred Gerrits, Loretta Schuh, Marion Appleton, Marie McCann, Catherine Fox, Lorraine DeBruin, Leona Melema, Joseph DeBruin, Joseph Schuh, William Coffey, Nicholas Fox, Sylvester DeBruin, William Appleton, John Daul, Chester Melema, Chester Appleton, Thomas McCann, Joseph Coffey, Norbert Daul, Elmer Smith and Bernard Ralph.

Delta Gamma society of Lawrence college had a dinner in Hotel Northern Monday evening. Covers were laid for 25 guests.

Gordon H. Corey was surprised Saturday evening at his home, 1217 Spencer-st., by a party of 28 friends. Music games and dancing were the diversions of the evening. Miss Fay Simpson, Miss Simpson, Ronald Westfall and Harry Walkers furnished musical selections. The hostess was assisted by Miss Alice Hill and Miss Oshkosh.

Mr. and Mrs. Edward Jahns, Spencer-st., were surprised by a number of friends Monday evening. Schafkopf and bridge were played. Prizes were awarded to Mrs. Michael Peters and William Polinski, schafkopf, and to Mrs. Peter Borchers, dice. The guests were Mr. and Mrs. Peter Borchers, Mr. and Mrs. Michael Peters, Mr. and Mrs. Peter Nabbefeld, Mr. and Mrs. Louis Letman, Mr. and Mrs. Theodore Calmes, Mr. and Mrs. Glenow, Mr. and Mrs. William Polinski.

Mrs. Anton Stadler entertained a group of friends at a party at her home, 810 Jefferson-st., Sunday evening. A supper was served and the evening was spent in playing cards. Prizes were won by Mrs. W. Hantschel and Mr. and Mrs. Michael Schmidt.

CHURCH SOCIETIES

Junior Olive Branch society met Monday evening in Mt. Olive Lutheran church. A social hour was held instead of the regular business meeting. Prizes at games were won by Esther Ziegler and Lester Poppe.

St. Alvarus Young Mens society of St. Joseph church will meet at 8 o'clock Tuesday evening at St. Joseph hall. There will be a short business meeting followed by smoker and lunch. Announcement has been made of a play, "All a Mistake," which is to be put on by the society Feb. 22 and 23. The play will be directed by Gustave Keller, Jr.

WOMEN OF GERMANY SEEK WORK IN SLAUGHTERHOUSE

By Associated Press
Berlin—Women have taken a hand in most of the trades and professions in Germany since granted the right to vote excepting the butcher business, and now they are endeavoring to get into that. Several strong-armed women have been advertising in Berlin newspapers recently for jobs in slaughter houses, contending that because of their physical development and inclination they are fully qualified to do the work of men.

It has been the custom for years to employ women and girls as clerks in retail meat shops and in sausage factories, but not until lately has there been any indication of women taking up work in the slaughter houses themselves.

45 Women At Meeting Of Music Dept.

About 45 women attended the meeting of the music department of Appleton Women's club Monday afternoon in the club rooms. Mrs. Fred Rendt conducted the study of Russian composers. Especially interesting to the women was a talk on Beethoven by Kibbach and his Russian choir, who appears here in recital Friday evening.

Miss Lucy Helen Pearson, general director of the club spoke, to the women on the Business and Professional Women club, which is to have its first meeting Tuesday evening.

A musical program was presented by Miss Albert H. Miller, Mrs. E. A. Morse, Mrs. Roberta Landouette, Mrs. Oscar Adler, Mrs. Clarence Richter and the music department chorus.

GLAD TO RETIRE FROM LIFE AT SEA

New York—From apprentice boy on a three-masted sailing ship to knighted commodore of the White Star Line is the "success story" of Su Bertram Hays as he retires after 44 years at sea. His last trip was aboard the liner Maestric.

There has been "more hard work than romance," he asserts—which recalls the lines of Emerson to the effect that "there is romance on every ship but the one you are sailing."

A check of his record points, however, to a most romantic career. Beginning as a poor lad, he learned his sea trade in short order and within half a year was fourth officer of a ship plying between New Zealand and San Francisco. His first command was the famous old Britanic. In this ship he carried troops to the Boer War and won the king's medal.

He directed the rescue of the crew of the wrecked Norwegian tanker Hahos and won another medal. During the war he took three troop ships with 200,000 men through the Dardanelles without a single loss of life and, after the war was knighted. On one of his trips his ship, the Olympic, sunk two German divers.

But that's all in a day's work, he says. No romance! So he hopes to find a little romance on dry land now that he's quitting at the age of 60. For he has never married. "A sea-faring man has no business to marry," he asserts. "It isn't fair to the woman."

LONDON POSTMEN CLEVER ARTISTS

London—The ordinary Londoner usually thinks of the postman as being engaged exclusively in the monotonous work of sorting and delivering mail. Many were surprised recently to learn that the employees of the British postal system have a flourishing art club which held an exhibition in which more than 400 pictures, all drawn or painted by postal workers, were shown.

Many of the paintings have been declared by art critics to be of exceptional beauty, and one of the exhibitors, who still continues his work in the post office, has had pictures in the salon of the Royal Academy. Unlike the Royal Academy, the G. P. O. Arts Club, as it is called, encourages beginners to exhibit, and there are no

TREEPLANTING MAY ALTER LANDSCAPES IN CANADA

By Associated Press
Winnipeg, Man.—Trees at the rate of 20,000 a day have been planted by farmers of Western Canada in the last 20 years, according to a report of the department of agriculture. A total of 150,000,000 young trees, the report shows, have been distributed free to farmers in that section since 1905. Early maturing varieties suited to climatic conditions were supplied.

The government's tree planting campaign was planned to transform the landscape of the prairie provinces set standards to be achieved before a planting may be given a public view. In addition to the plantings, there were exhibits of photographs and art needlework, many of them contributed by telephone girls in the postal service employment.

BIG SEAT SALE FOR BOY SCOUT MUSICAL REVUE

Kaukauna and Appleton Actors
Present Elaborate Stage
Production

Kaukauna—Sale of reserved seats for the Boy Scout production, "The Passing Show of 1925," will be presented here Wednesday and Thursday evenings, opened Monday morning and indications are that the production will be well patronized. Seats are being reserved at Look's and Brauer's drug stores.

The play is being staged by Appleton and Kaukauna actors and the proceeds will be used to finance Boy Scout work in Kaukauna and Appleton. About 125 people from the two cities are taking part. The production opened Monday evening in Appleton.

The performance consists of 10 big acts. Among local people who take leading roles are W. W. Burns, Miss Nellie Golden, Miss Dorothy Van Leshout and Harold K. Derus.

Ballet dancers from this city are the Miss Eleanor Dietzler, Ruth Winge, Lorraine Dreger, Amanda Hadd, Helen Weitenbach, Helen Martens and Laura Zwick. Young ladies who take part in the "Tump Tum Crow" "Oh, Susannah" and fencing dances are the Misses Helen Guilfoyle, Mildred Korn, Ione Hilgenberg, Magdalena Haupt, Dorothy Van Leshout, Zella Perantreau, Ione Hilgenberg, Lucille Lang and Germaine Van Leshout. Miss Zita Cerviere acted as accompanist for the dancers during their rehearsals in this city. Gorgeous scenery and costumes are expected to add much to the attractiveness of the play. Special attention also has been devoted to the selection of an orchestra for the production.

DRAMA CLUB WILL REPEAT ITS PLAY

St. Mary Dramatic Club Will
Present "Escaped from
the Law"

Kaukauna—"Escaped From the Law," a five-act comedy drama, will be presented next Sunday evening in the high school auditorium under the auspices of St. Mary Dramatic club. The play has been produced in St. Mary hall and will be repeated because of numerous requests.

The cast is made up entirely of Kaukauna people who are members of the dramatic club. The production was staged here on Nov. 30 and since then has been presented in Hollandtown, Freedom and De Pere. The story of the play deals with the life of a woman with a mysterious past. Acquaintances of that past life appear and wreck the woman's new happiness. The plot offers splendid opportunity for dramatic action, a feature which has been especially emphasized in the training of the characters. Plenty of comedy also is introduced into the production. The performance is scheduled to begin at 8 o'clock. About two and one half hours is required to stage the play.

DIDN'T DEFEAT MAROONS

Kaukauna—The manager of the Kaukauna Maroons has taken exception to the statement printed last week that the high school basketball team defeated the Maroons. The manager declares it was not a scheduled game and only two or three regular Maroon players appeared in the line-up against the high school. The two teams probably will meet about Friday, Feb. 13. Since the Maroons include all former high school players, they expect to have little trouble with the high school squad.

HALVORSEN PROMOTING CITY HOCKEY TEAM

New London—New London may have a city hockey team, according to Perry Halvorsen, a local man with considerable experience in the game. He has received offers of games from surrounding cities, and states that New London has plenty of splendid material for organizing a team. All local hockey fans interested in the game are asked to see Mr. Halvorsen and signify their willingness to cooperate in organizing.

CHILDREN MUST BE VACCINATED OR LEAVE SCHOOL

Health Board Moves Quickly
When Smallpox Is Found
in City

Kaukauna—Smallpox at last has reached Kaukauna and two cases have been reported to the local health officer. Because the disease is found all about this city, it was expected to here sooner or later, but local health officials have been quiet up to this time hoping the epidemic would pass over. Now, however, it is necessary to check the disease and Dr. W. N. No. No. city health officer, has issued an order that all school children and teachers must be vaccinated. Only those who have been vaccinated within the last five years are exempt. The task must be completed by Monday, Jan. 26 or those who have not complied with the order will be restrained from going to school. The order applies to pupils of public and parochial schools.

ADVANCEMENT CLUB MEETS WEDNESDAY

Kaukauna—Members of Kaukauna Advancement association and all other citizens interested in community welfare will attend the supper and meeting of the organization Wednesday evening in the municipal building, are promised a treat. A committee composed of M. A. Raught, John Hopfensperger, Carl Bartsch and Peter Renn has made all the necessary arrangements.

Supper will be served at promptly 8 o'clock and the weekly meeting of the association will follow. Business relative to the mid-winter fair probably will occupy part of the time. It is expected the meeting will close early, however, because other important meetings are scheduled for the evenings.

SMALL CROWD HEARS LYCEUM LECTURER

Kaukauna—An address of unusual merit and of great interest was given by W. C. McCullough Monday evening in the high school auditorium before a small crowd. The lecture was the third number of Lyceum course. Mr. McCullough's talk was entitled "Why You Are What You Are."

The speaker declared that life is what each individual makes it and that success in life depends entirely upon the individual's attitude and effort. He stated his opinion that the most important event in a man's life is when he makes his decision to take up a definite life work. The speaker had no patience with the excuse that circumstances enter into the making of success. One must overcome circumstances with willpower, thought and the power to put thought into action. Mr. McCullough declared that ambition is having enough interest in one's self to make the most of life. He defined habit as a cable of actions woven with threads of reputation into a cord that cannot be broken.

GIRL IS "ON TRIAL" AT DEBATE SESSION

Alice Werner, "Accused" of
Bank Robbery, Provides
Amusement at Meeting

New London—A mock trial was the feature of the semi-monthly meeting of New London high school debating society on Monday evening. Alice Werner was tried for robbing a bank of \$1,000 on Jan. 4, 1925. She was defended by Wilfred Zimmer, who attempted to act as sober as possible in his flowery appeal to the jury. The state was upheld by Attorney Paul Wolf, who nearly fell asleep cross-examining the witness, Lawrence Bodah and Beatrice Macklin acted as witnesses, after swearing to lie as much as possible. A jury of ten brought in a decision of "not guilty," but the judge, John Mulroy, was prejudiced in his opinion, and overruled the jury's decision. He sentenced the defendant to life and 90 years at hard labor, which she had never done before, in any jail that was strong enough to hold her.

The French war debt to the United States was discussed, several members pleading that the debt should be cancelled or put off for a time, but their arguments were swamped by those in favor of having an immediate settlement.

A new program committee, George Rosentretter, chairman, Wilfred Zimmer and Alice Werner, was appointed to provide programs for the next two meetings.

LEGION POST WILL HOLD SOC'AL NIGHT

New London—Norris Spencer post of the American legion will start activities for the new year Tuesday Jan. 27. Regular business meetings will be held the second Tuesdays and the fourth Tuesdays will be turned over to the entertainment committee. Guard Against "Flu" With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole. Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister.

Just rub it on with your finger-tips. First you will feel a warm tingle as the healing ointment penetrates the pores then a soothing, cooling sensation and quick relief.

Have Musterole handy for emergency use. It may prevent serious illness.

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole. 35c and 65c in jars and tubes.

A COUGH REMEDY WITHOUT OPiates

Many cough preparations contain some one or more harmful drugs which are added to take the place of opiates. None of these narcotic substitutes have ever been used in FOLEY'S HONEY AND TAR COMPOUND. The name of every ingredient is plainly printed on every carton. You know what you are taking when you take Foley's. It clings to the throat. Good for old and young. You have a cough, why not try it. Refuse substitutes. Sold everywhere. adv.

TELLS ROTARIANS OF PHONE PLANT

New London—New London Rotary club held its weekly meeting in Elwood hotel at 12:15 Monday noon. The chief feature of the meeting was a talk on telephone service by the manager of the local telephone office, R. J. Marshall. Several of the members furnished entertainment by telling parlor jokes.

An invitation was received from the Appleton Rotary club to attend its meeting in Conway hotel Tuesday noon, at which a noted lecturer from Chicago was to give the address.

The local Lions club also has invited the members of the Rotary to attend its education motion picture after the meeting Tuesday noon. The picture is of special value to business men.

WAUPACA-CO FAIR
BOARD FIXES 1925
DATES SEPT. 15-18

Glocke, Rieck and Hutchinson
Are Relected to Board
of Directors

Special to the Post-Crescent
Weyauwega—Waupaca County Fair association met at the village hall Thursday afternoon, with a good attendance. H. W. Gloeck, A. J. Rieck and R. A. Hutchinson of the board of directors, were reelected unanimously, as the association was well pleased with the management of the fair.

Reports of the secretary of the association, A. J. Rieck, showed a successful fair in 1924 in all departments, and also the best attended of any fair on record. The night fair was a success in 1924 and will undoubtedly be repeated in 1925.

A resolution was that all entries must be listed with the secretary not later than 6 o'clock on Saturday preceding the fair, at which time the entries are closed. Dates for the 1925 fair are Sept. 15 to 18.

The board of directors will meet Friday evening, Jan. 23, for election of officers.

About 40 of the local high school students and nearly all of the faculty accompanied the basketball team to Waupaca Thursday evening, Jan. 16. The local team lost by a score of 21 to 7. Miss Conlisk, physical education instructor from here, refereed the game earlier in the evening at Waupaca of the two girls basketball teams of Waupaca high school.

Leo Richter, son of Mr. and Mrs. John Richter, is in a hospital at Oshkosh taking treatment.

The thirty-fifth anniversary party and installation of Modern Woodmen and Royal Neighbors at Gerald's hall on Jan. 15 was attended by about 250, a good per cent of whom were visitors from New London, Waupaca, Fremont and Rosalia. Eight charter members of the camp were present.

After a well prepared program had been given a supper was served in the dining hall. A pleasing feature of the supper was a huge birthday cake with 25 candles and bearing the emblems of Woodman lodge.

Mrs. D. C. Hayward, Mrs. George Chasen and Mrs. William Nienhaus entertained the Kensington club at Hayward's cottage at White Lake Thursday evening, Jan. 15.

Mrs. Edward Munch and son Leonard are visiting at Oaklawn.

The Ladies' club was entertained on Monday evening, Jan. 12, by Miss Helen House.

William Robertson of Marshfield, came Thursday to attend the Woodman installation. He is a charter member of the local lodge.

Mr. and Mrs. D. C. Hayward and Mr. and Mrs. George Moody spent the first of last week at Milwaukee. Joan Peterson has a crew of men cutting ice.

Mayne Relief left Wednesday, Jan. 14, for Antigo to visit with relatives.

Mrs. Edith Botsford entertained a number of lady friends at her home Tuesday afternoon, Jan. 13.

Mrs. William Nienhaus entertained about 20 little boys at her home on Saturday afternoon, Jan. 17, in honor of the sixth birthday anniversary of her son James.

The Women's club met Tuesday evening and had an interesting program and a good attendance. Mrs. R. A. Hutchinson and Mrs. Albert Ankman were in charge of the program. Edna Haire, Interior Decorations; Miss Eunice Fenlon, a landscape gardener of Chicago, on exterior Decorations; Miss Susie Bennett, the Art of Selection and Hanging of Pictures in the Home.

RADIO HELPS SOLVE MYSTERY

For two months the immigration authorities at Norfolk, Va., held a man whose nationality or language none knew. At last he broadcasted the series of grunts and squeals which passed with him for language. A young Finlander came forward and identified the puzzle as a Finnish nationalist and writer named Oskela, who spoke an obscure Finnish dialect.

Back Bad This Winter?

DOES your back ache with a dull, unceasing throb; sharp pains torture you at every step? Are you lame and stiff; tired and nervous—utterly discouraged?

Too often this condition is due to weak kidneys. Winter's colds and chills weaken the kidneys and slow up their work of keeping the blood-stream pure. Then come constant backache, rheumatic pains, headaches, dizziness and annoying kidney irregularities.

Don't risk serious kidney sickness. Get **Doan's Pills** today. **Doan's** have helped thousands. They should help you. *Ask your neighbor!*

Here is Appleton Proof:

Mrs. C. Roesch, 929 Superior St., gave the following statement September 15, 1913: "My back was lame and pained a great deal across my kidneys. It was painful, as well as annoying, in getting around to do my work. **Doan's Pills** quickly removed the backache."

On September 8, 1923 Mrs. Roesch added: "Any time I have used **Doan's**, the results have always been fine."

RADIO PROGRAMS

The biggest crowd that ever attempted to get inside of a theatre at Evansville, Ind., greeted Harry M. Snodgrass in the opening concert of his vaudeville tour Sunday. The lucky few who were able to cram themselves inside cheered, cried and went into hysterics. The all-day demonstration for Harry was the greatest outburst of sentiment Evansville had ever had. He was introduced to 1,500 men while 3,000 more were greatly disappointed. Harry's next stop is Springfield, Ill., his home town, then Kansas City, St. Louis, Chicago, Milwaukee and Minneapolis. He will then head his triumphal tour toward the Pacific coast.

Yesterday hour from WJAF, New York; WJAR, Providence; WEEI, Boston; WGR, Buffalo; WFI, Philadelphia; WCAE, Pittsburg on Tuesday evening from 8 to 9 o'clock promises to be a real program. A story of the sea narrated by Martin Christensen, an experienced seaman, in which thrilling adventures of men cast away without food on a desolate island for days, are related in interesting style, is the feature. The Everyday group will present a musical background throughout the story. Another feature of the evening is a fine program by the Goodrich Silvertown Cord orchestra under the direction of Joseph Knecht.

WGY, Schenectady; WJZ, New York; WRC, Washington, will broadcast the United States Navy Band orchestra Tuesday evening. WLS has a special Tuesday night program and several features are on the air from the Pacific coast.

FOR SAFETY RECORD

Crowd of 1,000 Attends Safety Program Given by Paper-mill Sunday

Kimberly—The safety program given Sunday afternoon in Kimberly clubhouse was attended by a crowd numbering approximately 1,000.

The program began with music on the piano by Hans John. Several songs were sung by all attending, including "Onward Soldiers" and "My Wild Irish Green" led by E. Schmidt. Songs were given by men from the sulphite and plant departments and a flute duet by P. A. Paulson and H. Heller. They were called back to the stage for another selection.

A real oldtime barn dance amused the audience and a safety talk then was given by "Farmer" Kruse of Wausau. He stressed safety because it often saved a man's life and saved others' grief.

Several songs by young people from the mill dressed as farmer boys and maids came next on the program, followed by a musical act by Ed. Nelson and Charles Tubbs, the former playing a violin and the latter a banjo. The next was a clog dance or old-time jig by several men from the mill. Music on the piano was furnished by Floyd Lane.

The stage was arranged to resemble a barn and the program was rural with all the actors dressed accordingly. The stage decoration was in charge of Miss M. Baker.

Talks by W. J. Sensesbrenner and J. C. Kimberly, directors of Kimberly Clark Co., occupied part of the time. Awards of \$5 each were distributed to men from the sulphite and plant departments. Each had endured for 100 man years of safety scores without an accident. It was the second consecutive time that these departments had made this record, making a total safety record of 200 man years without an accident for each department. There were 172 men in the plant department and 88 in the sulphite department.

FOUR INSTITUTES ARE IN PROSPECT FOR FARMERS

MEETINGS WITH BIG SPEAKERS OPEN DURING FEBRUARY

Kaukauna, Seymour, Nichols and Bear Creek Are Places Chosen Thus Far

Dates now have been set by R. A. Amundson, county agricultural agent, for three farmers' institutes and a fourth has been agreed upon. Some of the speakers also have been engaged.

Kaukauna is to have its institute in connection with the midwinter fair, Thursday and Friday, Feb. 19 and 20. A program of meetings will be announced that will be of interest to the farmers.

Seymour institute is set for Tuesday and Wednesday, Feb. 17 and 18, and that at Nichols for Thursday and Friday, Feb. 12 and 13. Another institute is to take place at Bear Creek but the dates are undecided. This one probably will be held the latter part of February or early in March.

ENGAGE RASMUSSEN
Very few speakers have been chosen but plenty of time is being used so as to secure good ones. N. A. Rasmussen of Oshkosh, one of the most prominent truck garden farmers and horticulturists of the state, has consented to speak at Seymour and Nichols. His prominence in this field is more than statewide.

A. H. Tripp of Gills Landing is to be on the program at Nichols. He is president of the Association for Relief of High Water and will tell the latest developments in trying to save the riparians. He was invited to Nichols because so many of the affected farmers live in that vicinity.

Another man who will figure prominently in the institute programs is A. C. Murphy, agricultural agent of Shawano-co. He will judge the exhibits and perhaps be one of the speakers.

WANTS W. P. JONES
Mr. Amundson is in communication with W. P. Jones, the state department of markets and hopes to schedule him at Kaukauna. Mr. Jones is an expert on fruits and vegetables.

These are perhaps the only institutes that will be held this year but meetings of various rural groups will be scheduled during the remaining winter period. Cabbage growers will be assembled to prepare for the planting season, shippers' associations will meet to discuss their problems further and others interested in various projects will be scheduled to meet.

Farmers are asked by the county agent to make note of these dates and arrange to attend their nearest institute at that time. Full program details will be revealed later.

ORDER IS PLACED FOR PYRATOL CAR

Farmers Are Notified to Place Orders If They Want Portion of Explosive

Outagamie-co farmers will have a quantity of pyratol explosive at their disposal this spring, as an order has been placed with the government for 10,000 pounds by R. A. Amundson, county agricultural agent.

Delivery of the stump removing explosive is to be made to Black Creek and Auburn, according to Mr. Amundson. The price will be \$7.50 a hundred pounds if the farmer hauls his supply from the car himself, otherwise freight and cartage will be added. The date of arrival of the shipment has not been learned but it is believed the car will arrive about April 1. The government has a large number of orders on hand. Wisconsin's supply is about a quarter of the college of agriculture at Madison.

All farmers who have land to clear and want some of the pyratol are asked to place their orders either with Mr. Amundson or with the Bank of Black Creek. The bank is advancing the money for the shipment.

This is the second year that Outagamie-co has received pyratol shipments. The supply a year ago was not sufficient to go around but it is believed there will be enough this time for all farmers who need some. Only 10,000 pounds was ordered, however, because many farmers cannot afford to buy this year.

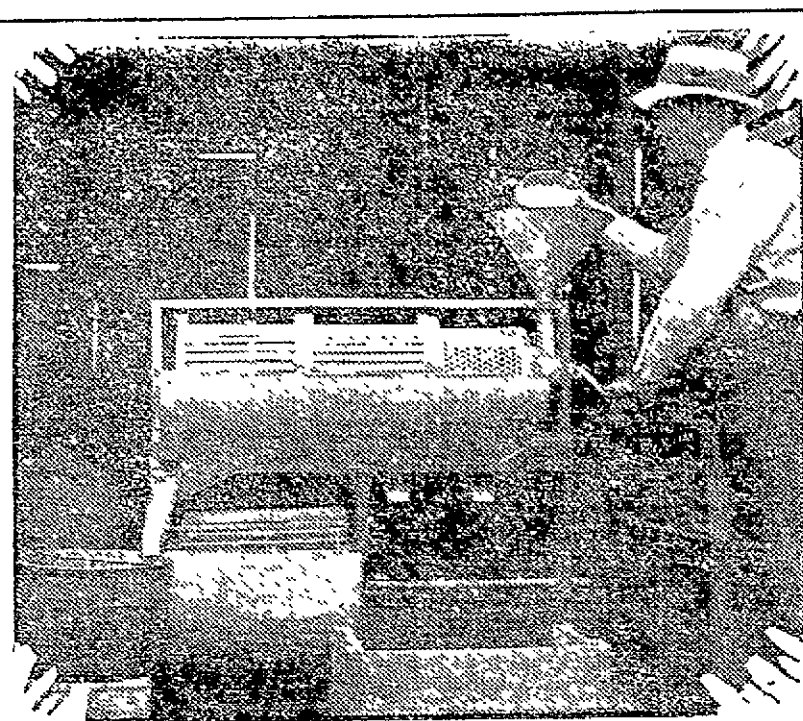

CHURCHES WILL COLLECT MONEY TO HELP BLIND

A campaign to raise money for establishing a trade school and workshop for the blind, fostered by the Badger State Association for the Blind, will benefit by collections to be taken throughout the Green Bay diocese of Council Bluffs by Bishop Paul P. Rhode of Green Bay has ordered that such a collection be held on Jan. 25.

The institution is to cost about \$25,000 and will provide opportunity for the adult blind in vocational training and will place them at work in various occupations. The association has existed for six years, and now has a membership of 250 adult blind, of whom 172 have been trained and placed at work. There are 2,000 additional adult blind in the state eligible for membership.

A Winter Corn Job

Seed planted for corn next spring must be handled in the best way possible to cull out as many of the unpromising kernels as can be taken out by mechanical means.

In order to get seed planted evenly it is necessary to grade the corn into various sizes so that the planter can be adjusted to drop the desired number of grains in each hill. Some sort of corn grader, such as the rotary apparatus shown here, is worth while for a farmer who has an considerable quantity of corn to plant or who has seed he is preparing to sell.

This machine takes out the very small and the extra large kernels and grades the rest so that those of the same size may be planted together.

Mr. Dorschner led the association also on the tour.

MAKES POOR BET

London—Abel Dann, clown in an English circus, and George Marvin, tight-rope walker, agreed to exchange jobs for one performance. It turned out to be a poor stunt for Dann. He fell 10 feet off the rope and severely injured his back.

FERTILITY IS WORTH \$780,000 TO FARMERS

Outagamie-co is richer yearly by \$780,000 because of the soil fertility produced by a by-product of dairying, according to the Blue Valley Creamery institute. The figure is based on data resulting from many carefully kept records on a considerable number of farms.

The average quantity of manure recovered for use on crop lands in the area studied was 7.4 tons per cow, and since the fertilizing value of a ton of manure is \$2.60 the by-product of each cow is approximately \$20.

The application of this figure to the 39,000 dairy cattle in this county brings the total added value of the soil fertility here to the almost unbelievable figure given above.

In keeping with its better feeding program the institute estimates that from 25 per cent to 50 per cent greater profit from each ton of feed can be made by local farmers who milk cows through improved feeding methods, alone. This was demonstrated, it states, by the experiment recently concluded by the University of Minnesota. The school's division about a year ago purchased

four average cows with available records but without a scientific feeding ration and by merely placing them on a home-grown ration suitable to their needs, increased each cow's production almost 40 per cent.

office, but it is expected this examination will be held at Depere.

Appointments will be made as a result of the examinations unless it is found in the interest of the service to fill the vacancy by transfer or promotion. This is not an examination under the civil service act, but is held under an executive order of May 19, 1921. Application blanks may be obtained at the Appleton postoffice from Herman J. Franck, secretary of the local civil service board.

Language Of Marketing Reports Explained Here

Madison—Terms generally used in market reports, the understanding of which presupposes a familiarity with them and a knowledge of what they mean, are explained by the state department of markets.

Briefly, a description of the more important terms follows:

Active—This represents a condition of quick sale, good demand and a generally healthy condition. There may be no decided change in prices, although it usually indicates an upward trend.

Firm—This represents a condition of strong confidence in general conditions, resulting often in the strengthening of a price range, but seldom in actual price advance.

Steady—This represents a normal movement with steady, consistent trading showing no decided change one way or the other.

Unsettled—This represents a condition of uncertainty on the part of sellers and usually indicates a weak tendency. There may be no actual price change one way or another. It represents a waiting attitude with spasmodic trading.

Weak—This may be used in describing a condition of actual price decline with the possibility of further decline and represents a decided lack of confidence on the part of the seller. It may also be used when no actual price declines have taken place but with large supplies on hand and heavy supplies in sight, it is the prevailing opinion that a decline is inevitable.

"A market phrase closely related to the preceding one," said the department, "is 'market weaker', which is a cooperative term and refers back to conditions of the previous day. It may represent a general decline in price, but the important thing in this particular situation is that less confidence exists as compared with the reports of the day before."

"Besides the above terms others are used, such as 'market excited' which represents a condition of uncertainty and bullish tendency on the part of the seller 'market dull', which points to light trading and suggests a condition of uncertainty and possible depression. Then there is the term 'market demoralized' which is used only in unusual cases. It represents a situation when, because of depressively conditions, usually resulting from over-supply of products of highly inferior quality, the demand is almost wholly absent from the market shows no stability. A wide range in prices results from the willingness of sellers to dispose of their stock at almost any price of force."

DAIRY OVERLOAD WILL BE STUDIED

A number of farmers, breeders, members of cooperative societies and others identified with agriculture in Outagamie-co will attend the sessions at the annual farmers and homemakers week at Madison, Feb. 3 to 6.

Robert A. Amundson, county agricultural agent, will be one of those to go from this county.

Some farmers make a practice of attending practically all the sessions every year, while others make the trip about every three years or four years. Efforts are being made to secure the attendance of those who never have attended the farmers' course before. The question of over-production in the dairying industry will receive considerable attention at the sessions this year.

Coughs Always Dangerous—Quick Way to Stop Them

Chronic coughs and chest colds often lead to more serious trouble. Not only is the infection itself dangerous, but the continual coughing spells day and night so weaken your entire system that you can no longer fight off disease.

So stop a cough the quickest way you can. Do this there is nothing better than that old time tried and proved remedy—Dr. Bell's Pine-Tar-Honey. Doctors say there is nothing like pine-tar extract to quickly loosen and remove the phlegm and congestion which are the direct cause of the cough, while the honey both gives a pleasant taste and helps soothe irritation. The quick relief to the stubborn cough often seems almost magical.

But be sure you get the genuine Dr. Bell's Pine-Tar-Honey, and no substitute. Dr. Bell's is the original pine-tar-honey and has been known for over a quarter of a century as the best. It is scientifically compounded of just the right proportions of pine-tar, honey and other quick acting, healing ingredients which the best doctors have found to aid in quick relief. Contains no opiates or other harmful drugs. So can be given even to young children—fine for spasmodic cough. If you want the best, a medicine that often relieves the severest cough, cure you, make sure you get Dr. Bell's. Only 30c at any good druggist.

715,000 Prosperous Wisconsin Families Shop From the Pages of Their Daily Newspaper

GOING into practically every city and farm home in the state, Wisconsin Daily Newspapers are the shopping guide for the most uniformly prosperous people in America.

Skilled wage-workers in a score of industrial cities—prosperous grain, fruit and vegetable farmers with the profits of a bumper crop to spend—America's largest group of dairy farmers with their steady weekly milk and cream checks—all are readers—all are buyers, and heavy buyers of those products advertised in their daily newspaper.

Let us give you the facts on how scores of national advertisers have utilized Wisconsin Daily Newspaper Circulation and Merchandising Service to build a permanent and profitable market in this state.

Address the Secretary, 419-421 Sycamore Street, Milwaukee, Wisconsin for complete and illuminating details.

PROPOSE \$25,000 CLUBHOUSE AT NEW GOLF CLUB

PLANS WILL BE CONSIDERED AT ANNUAL MEETING

Winnebago Land Co. President Ready to Submit Building Plans

Direction of a locker house for use of members of Butte des Morts Golf Club will be one of the matters under consideration by stockholders of Winnebago Land Co. at the annual meeting the first week in February. One of the plans that will be considered is an attractive structure costing about \$25,000 which A. H. Krugmeyer, president of the land company, is recommending as the most feasible way to meet the need for club quarters.

Plans have been mailed to each member by Mr. Krugmeyer, outlining his plan and showing sketches of the proposed building. The folder also contains a financial report for 1924 showing that the club expended \$55,782.82 in building its 18-hole golf course on Brickyard rd., yet is entirely free from debt.

It is suggested by the president that the Hammes farmhouse which was on the property when purchased be sold or removed rather than be modeled for temporary quarters. The building he proposed will be one-story high and will contain a locker room, grillroom, dressing room, cloakroom, quarters for the professional and secretary and a kitchen.

The plan was prepared by W. C. Jackson, golf engineer who constructed the Butte des Morts course, after he and other members had inspected buildings in other cities. It would be perhaps one of the most complete and substantial of any in this locality.

Two proposed units are shown in the drawings. The front section is the grill, which will be 47 feet across the front and 42 feet long. It will be surrounded on three sides by a veranda 12 feet wide. The grillroom proper is about 45 feet by 27 feet in size and makes a commodious lounge, room or a place where dinner parties can be held. The rear portion is taken up with a kitchen, luncheon, ladies' cloakroom and ladies' lavatory.

The other unit adjoining this one at the back is 75 feet long and about 880 feet wide. It will contain 200 lockers, ample dressing room, seven shower baths, toilets and a supply room.

Face brick is suggested on the exterior and interior, with hollow tile between, and the foundation will be of concrete. Floors of terrazzo are specified except on porches and in part of the locker room. The roof would have green shingles to make the building blend with the grove in which it would be built. Casement windows are proposed, to be ornamented with window boxes. The entire plan embodies a structure that will be permanent, fireproof and free from frost.

Each member is asked to consider this and other plans and to make his ideas and wishes known at the annual meeting.

LOVE THY NEIGHBOR IS GANDHI DOCTRINE

Gandhi would destroy all factories and mills, drive the children from the schools, dismiss the mayors and have the nation's people worship at one church; if he should become ruler of this country, according to Prof. R. H. Hannum of Lawrence College, who spoke on what the Gandhi Movement in India Should Mean to the United States, at the World Outlook Forum Sunday afternoon at the Y. M. C. A. A large crowd attended the meeting which was followed by questions and an informal discussion.

SPRAY THEATER SEATS TO PREVENT CONTAGION

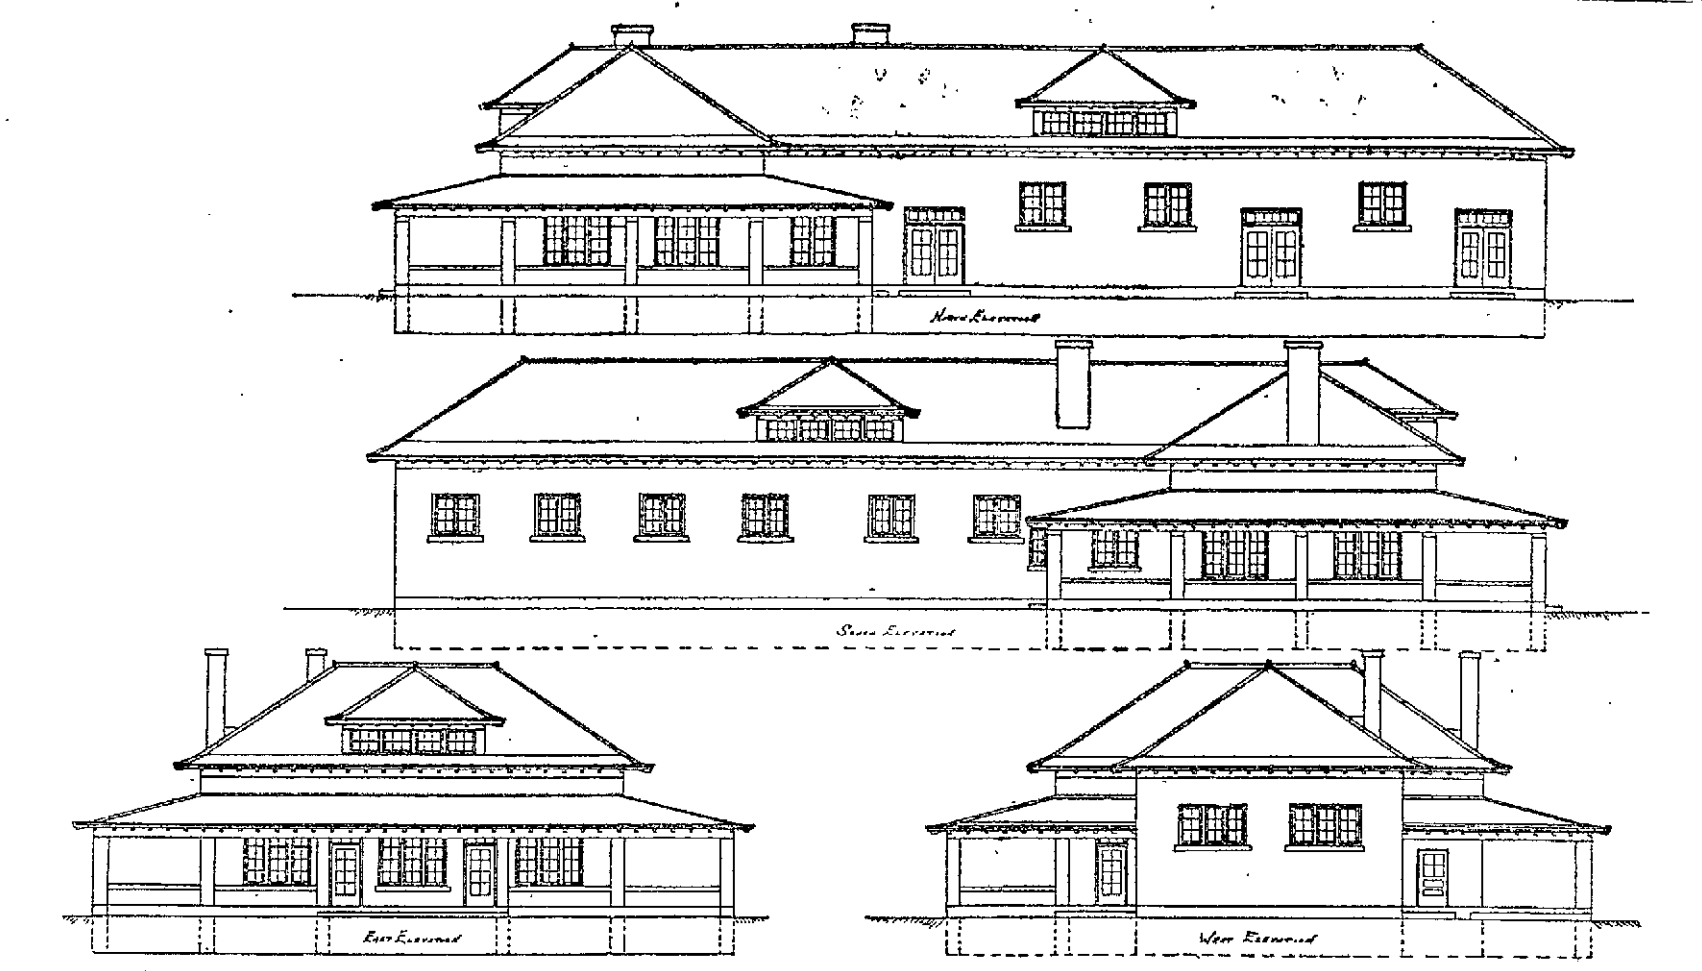

Daily precautions are being taken by Neil Duffy, manager of Elite theater, to prevent the spread of contagion while the show house is crowded. Every seat in the building is sprayed each morning by the employees with a solution containing formaldehyde and chlorine, a germicide recommended by local doctors. The building also is allowed to stand open long enough to be well aired. In these times when malapox and other diseases are abroad in the community he believes these measures will help to prevent their communication to other persons.

ALL TEACHERS HERE ARE IN STATE ASSOCIATION

Appleton schools again have a 100 per cent record as far as teacher enrollment in the Wisconsin Teachers association is concerned. Miss Carrie E. Morgan, city superintendent of schools, Saturday received a certificate of honor from President C. J. Anderson and Secretary E. G. Doudna of the association, certifying that every teacher of the Appleton public school system is a member of the state association.

ST. PAUL CHURCH RECORDS PROGRESS

Gains More Members, Faces Prospect of Freedom from Debt This Year

Four new officers were elected by the congregation of St. Paul Lutheran church at the annual meeting at the church Sunday afternoon. Reports showed a gain in membership and a record financial year inasmuch as the church practically is out of debt.

Adolph Jahnke, Sr., was elected recording secretary to succeed Edward Mueller; Tim Sauer, Jr., succeeds Charles Gehl as trustee, and William Timra replaces Carl Jelsing in the same capacity. William Brandes was named a member of the school board in place of Herman J. Brack. All retiring officers declined reelection so as to give others a chance to serve.

Reports showed that 44 members were admitted during the last year, 23 of whom were voted in at the meeting Sunday. This gives the church a membership of 543 families. The pastor, the Rev. T. J. Sauer, reported 26 funerals, 49 baptisms and 10 weddings in 1924. The parochial school now has 20 pupils and 5 teachers.

All indebtedness will be paid by the end of 1925 because of pledges amounting to \$4,500 which were made by the members within the last year for this purpose. The total receipts for current expenses were \$20,200 and the treasury now has a balance of \$1,615. An additional \$4,012 was contributed by the members for missionary and synodical purposes.

William Plenzke was reelected as janitor. Installation of officers will take place at the German service at 10:35 next Sunday morning.

HEILG WILL TALK ON EDUCATION AT FORUM

Herbert Heilig, director of Appleton Vocational school, will discuss education at the meeting of the Industrial Forum at 7:30 Wednesday evening at the Y. M. C. A. Some of the points which will be considered are: Taxing Brown to educate Jones' boy; what education is for, the educational opportunities offered to boys, girls, men and women in the heart of the Fox river valley, how and why education pays; was the free school instituted for the personal advantage of Jones and his boy or as a public benefit?

An informal discussion will take place after the talk. Men and women of Appleton are invited. The program committee consists of William Mehring, A. S. MacArthur and Charles Kelly. A. W. Agrell is in charge of the Forum.

Sunset Players Elect

Ruth Grote, Reedsburg, was elected president of the Sunset Players, campus dramatic club, at a meeting last week. A vacancy was caused by the resignation of Walda Rusch, of Appleton. Miss Grote has been a member of the players for three years, and directed the three act chapel, "You and I" by Philip Barcomedy recently presented at the Y.

One of the largest selling cough medicines in the world. Contains no opiates. Safe for children. Insist upon Foley's. Refuse substitutes. Sold everywhere.

Easy To Find Trout Stream In Wisconsin

Madison, Wis.—Wisconsin's trout stream mileage is 8,896, more than that of any other state, according to E. O. Webster, state superintendent of fisheries. This state also is doing more than any other to propagate trout and other fish, including muskellunge, black and green bass and walleye pike, he said.

Langlade and Shawano lead the 11 counties of Wisconsin with seven hundred miles of trout streams each. Forest-co. has five hundred miles and Lincoln and Polk, four hundred each. Bayfield, Douglas and Dunn each has between three and four hundred miles.

CHURCH PAID \$4,700 ON BUILDING DEBT

Satisfactory condition of the finances of Mount Olive Lutheran church at the close of the year was reported to the congregation at the quarterly business meeting at the church Sunday afternoon. The building debt was reduced \$4,700 last year, the giving was liberal and the treasury had a balance of \$1,565.59.

Total receipts during 1924 were \$13,672.80 and the expenditures amounted to \$17,107.21. Missionary collections totaled \$1,459.14 and the church gave \$662.92 to the fund for German children's relief. The full treasury statement for the year has been printed and distributed to members. Several new members were received.

Families of the church enjoyed a lunch and informal social time after the business meeting. The Misses Linda Lang, Ruth Dahlke and Lorraine La Buwl of Oshkosh, spent the weekend with Mr. and Mrs. Elmer Boettcher, 1017 Morrison st.

CAMPSITE USERS REDUCED TO HALF

Alicia Park Experienced Light Patronage in 1924, Report Shows

Tourist patronage at Alicia park dropped in 1924 to almost half the number registered in 1923, according to figures compiled by George Merkel, caretaker. There are many opinions as to the cause.

There were 2,867 tourists registered during the 1924 season, coming here in 810 automobiles, as against 6,459 who signed cards in 1923 and came in 1,159 cars. The expenditures for gasoline, oil, tires, repairs, groceries and other articles were reported as \$6,256.26 this last year and were \$11,712.52 in 1923.

Last year's cool weather and continued rains are believed to have had much to do with the decrease in use of the camp. Many people gave up their plans for long automobile trips

or vacation jaunts to the northern lakes. It also is ventured that Appleton lost campers because the Yellowstone trail was taken away last spring. Many of the families making

cross-country trips camped along the way to cut expenses, and these did not come to Appleton because the trail branches off toward Dale and Waupaca after it leaves Oshkosh instead of coming through this city.

Colds Should Always Be Treated With Vapors

Vicks Vapo-Rub
"A Vapor Lamp In Salvo Form."
No Dosing,
You Just Rub It Over Throat And Chest.

It has long been recognized that the most effective way to treat colds is to apply the medication directly to the affected parts. This of course can only be done by means of vapors that can be inhaled. Vicks provides the ideal method of securing medicated vapors. When rubbed over throat and chest the ingredients—Menthol, Camphor, Eucalyptus, Thymol, Turpentine—are vaporized by the body heat and inhaled directly into the air passages and lungs. At the same time, Vicks is absorbed through and stimulates the skin like a poultice or plaster, affording a double action which brings truly remarkable results.

Do You Shut Your Eyes When You Spend Your Money?

Some persons spend money blindly as long as they have it; when they reach the bottoms of their pockets they worry and wonder where money for needed expenses is coming from.

Others chart their expenses and savings in advance; then they check up on spending to make sure they have followed their plans. These persons keep budgets. Under their system paying bills is a matter of mere routine instead of an eleventh hour hurry-scurry to make both ends meet.

Spending without planning is a disorderly sort of way to go through life. Frequently it deprives you of necessities, comforts and recreation. Often you find—too late—that money for things you need has gone for things you really didn't want.

Today is Budget Day, the sixth day of National Thrift Week. Substitute system for chance. Get a budget book and keep a budget. You'll be amazed to see how much further your money will go.

STILL NO ACTION ON PURCHASE OF TRUCK FOR CITY

Committee Report Fails to Secure Approval of Common Council

Neenah—The city is no further ahead in buying an automobile truck than at the last meeting of the council. The council committee to which the purchase of a new truck was referred after looking over ten bids from as many truck manufacturers sifted the choice down to two machines. One is a 3½ ton truck and the other is 5 tons, the former to cost \$5,351 and the latter \$6,559. This was the report to the meeting of the council Monday evening.

Alderman Marty of the First ward moved that the \$2,000 car be purchased, which brought the matter to a heated discussion. The majority of this committee reported that they were in favor of the more expensive truck but had not seen either of the trucks demonstrated. Alderman Schmidt of the Fifth ward charged the council was going into a deal with its eyes shut. Not being able to decide which of the two to purchase a vote was taken to ascertain how the members stood. Seven opposed buying and three were ready to act. A motion was made to drop the proposition of purchasing a truck entirely but lost by a vote of 6 to 4. The committee was given more time to look up trucks suitable for the city and make a report at the next meeting. This matter has been in the hands of the street, highway and bridge committee for the last month.

Applications from H. E. Shatka, manager of the Lakeside hotel and Edward Starfield for license to conduct soft drink parlors and a pool room, were referred to the committee on police and health licenses.

The widening of Dotwase-st. was left with committee on streets to investigate and make a report.

By a resolution which was adopted, tax payers will have their time for making payments without penalty extended from Feb. 1 to March 1.

An important ordinance adopted Monday covers up disorderly conduct, drunkenness on the streets and in public buildings and general assault. Fine of from \$2 to \$50 or imprisonment in the county jail for 30 days will be imposed for violation of the ordinance.

A temporary ordinance was introduced by the street planning committee to conserve property values by not allowing the building of factories, store buildings or garages in a block where three-fourths of the buildings are residences. This ordinance was adopted.

The managerial form of government for Neenah was brought up for action until after the legislature takes some action on the home rule amendment.

Proper lighting of streets in the First and Second wards brought on a heated argument between the aldermen of those two wards, one claiming that his ward was not lighted as well as that of the other. A court of lights is to be made in the near future.

Bills amounting to 1,706.99 incurred during the past two weeks were allowed.

Assurance from this district that the new bridge matter will be brought before the highway commission soon gave rise to an idea that if this commission did not act the matter will be brought before the legislature as a special measure to provide funds for building a new bridge across the Fox river in Neenah to replace the one which is in dangerous condition.

BREX'S KNEECAP
Neenah—Mrs. Walter Hennebery, 511 East Winnebago-ave., broke her kneecap in a fall Monday afternoon at her home. Mrs. Hennebery fell while descending a stairway.

ORDER TEACHERS TO
SUBMIT TO CLINIC TESTS

Neenah—The school board will require all teachers in Neenah public schools to submit to the anti-tuberculosis clinic to be held at Kimberly high school in February. This action was taken at a meeting of the board Monday evening. Regulations recommended by the industrial board, such as fire escapes, better fire protection to ceilings, and safeguarding the gymnasium balcony, began last season, were turned over to C. F. Hedkes, superintendent, to have completed.

JUDGE HEARS APPEAL FROM PRICE FIXING

The appeal of condemnation proceedings which the village of Kimberly instituted against Martin C. Williams, et al., will be tried by a jury in circuit court at 2 o'clock Thursday afternoon. After a jury in county court had determined that a necessity existed for condemning the property for street extension purposes an appraisal commission fixed the amount of damages that ought to be paid. It is from this decision that the defendants in the case are appealing. The defendants in the case are Theodore Williams, Johanna Williams, Henry H. Williams, Madeline Williams, Martin C. Williams, Sarah Bos, Anton Bos, Mary Helgeson and Albert H. Helgeson, who are represented by the law firm of Martin, Martin, Martin, Clifford and McHale of Green Bay. The village of Kimberly is represented by attorney C. G. Cannon of Appleton.

Frost Bite Remedy Is Very Simple

Frostbites were common occurrences in Anytown where Mr. and Mrs. Mann lived.

Small boys after school hours, just would not stay in, even if the temperature was around zero.

What's a little matter of cold weather when boys want to play?

Then one of Mrs. Mann's youngsters complained that an ear was sore, and it itched and itched and itched.

"Frostbite," said Mrs. Mann, who had been expecting just this thing.

So she mixed some spirits of turpentine and sulphuric acid, each one four ounces, olive oil, one and one-fourth ounces, and after she had shaken the mixture up, she gave the ear an application.

"Now, the next time you must play out in zero weather, you pull the ear tabs of that cap down," she admonished.

"Why do you suppose I bought that cap for you Christmas, anyway?"

Adventures Of The Twins

NANCY CLEANS UP SMUDGES

What do you think Nancy and Nick and Johnny Sweep saw when they popped out of the stove in the Toy Maker's Shop.

They saw Snitcher Snatch, the rascally little goblin, putting soot or all the baby dolls.

There was a lovely French doll with a smudge on with her lovely pink cheeks and Gretchen, the Dutch doll, with a smudge on her apron, and Bobbie, the sailor boy, with his white duck trousers simply ruined.

When Snitcher Snatch saw them coming, he scampered off and hid behind a baby carriage, but his nose was too long to hide and it stuck away out and gave his hiding hole completely away.

"Come here, sir!" commanded Johnny Sweep.

But the goblin didn't answer.

"Come here, sir!" said Johnny again, very, very sternly.

So Nancy set to work.

"There's nobody here!" squeaked Snitcher Snatch. "I don't know who you're talking to."

"I'm talking to a bad goblin who is hiding right behind that blue baby carriage," said Johnny. "I see his nose sticking out."

At that Snitcher Snatch popped out. "Oh, this old nose of mine! It's always giving me away!"

And he gave it a pull with his sooty fingers.

"Oh, looker!" cried Nancy laughing. "Just look and see what you've done! There's a glass in that doll-bureau. Your nose is as black as coal."

Now goblins are very vain, and Snitcher Snatch couldn't bear to think of having a spotty nose. So he turned to look in the little mirror behind him.

Quick as lightning Johnny Sweep and Nick jumped at him and caught him and held him tight.

"Let me go! Let me go!" he screamed biting and kicking as a goblin could.

"What's all this?" asked the kind old Toy Maker sticking his head in "What do I hear?"

"This bad little goblin was spilling all your nice toys," said Nick.

"Well, well, well! That's too bad," said the kind Toy Maker. "Is he very bad? And are the toys very much spoiled?"

"You can look and see," said Nick. "He's got soot over everything."

"Tut, tut, tut!" said the Toy Maker to the goblin. "That's no way to get to bed. I haven't time now to clean them up because I'm putting the toys into big bags for Santa Claus. One bag I send up to the North Pole and the rest I have on my roof. When Santa Claus empties his bag he comes to my roof for more. It saves time because it's a long way to the North Pole."

"Well," said Nancy. "If you tell me where the soot and water are, I can get some of the soot off. I can get the soot off the clothes, and Bobbie and Gretchen will be as good as new."

"Good!" said the Toy Maker.

Women's Conference Studies Cause And Cure For All War

ABOVE—LEFT TO RIGHT, MRS. JOHN FERGUSON, MRS. CARRIE CHAPMAN CATT, MRS. GEORGE F. FORD. BELOW—(LEFT) DR. AURELIA REINHARDT, (RIGHT) MISS BELLE SIERVIN.

Washington.—What causes war? How can these causes be removed and cures instituted to bring about old and community peace?

Eight of the largest national women's organizations in the United States have decided that world peace is a far more complicated thing than can be obtained by the simple expedient of adopting slogans and establishing "no more war days."

No delegates from what is perhaps the largest electorate of American women that has ever united on a single issue will meet in Washington Jan. 18 to 24, at a national conference on the cause and cure of war.

SEEK CAUSE

They still believe in slogans but they realize that there are causes of war which remain untouched by them.

Such subjects as over-population, armament competition, economic rivalries, and the mass psychology for war as causes of conflict will be explained by experts and specialists.

After the course in "causes" there will be a course in possible "cures" and at the end of the week a definite program of work for the future will be formed. Delegates will then be expected to carry to their communities a practical education for peace.

MRS. CATT TO PRESIDE

Among the women who will be prominent in perfecting the organization are Mrs. Carrie Chapman Catt, who will act as general chairman of the conference, Mrs. Belle Siervin of Cleveland, president of the National League of Women Voters, Dr. Aurelia H. Reinhardt of Oakland, Calif., president of the American Association of University Women, Mrs. George B. Ford of the National Board of the Y. W. C. A., and Mrs. John Ferguson of New York, of the Council of Women for Home Missions.

Delegates will attend from the American Association of University Women, the National League of Women Voters, Council of Jewish Women, the National Y. W. C. A., the Y. W. C. T. U. the General Federation of Women's Clubs, the council of women for Home Missions, and the Federation of Woman's Boards of Foreign Missions in North America.

DREAMS Each Has Its Own Meaning

For one to experience the sensation of fainting while dreaming is a signal of caution that should not be taken too lightly.

Recorded dreams have proved to those making a scientific study of these visions that such a dream usually brings bad results. In numerous cases it has been found that the dreamer awakens to hear of illness in his or her family, to receive unhappy news of business reverses or to meet with an accident a short time later.

INTERPRETATIONS

If you awaken from your sleep excited and breathing hard as though you had nearly been suffocated, your health is in jeopardy, be careful.

Unhappiness in love and reverses in business are likely if in your visions you seem to have severe aches and pains, only to awaken to find yourself quite comfortable.

When it appears to you that you have been badly wounded, but there is no apparent cause for the wound you are laboring under a mental impression that is a fallacy.

"You'll find a whole washing set over there boiled that black board. Closets, pins, iron, and everything!"

"So Nancy set to work."

"You'd better let the bad little goblin go," he said to Nick and Johnny Sweep. "He doesn't look like such a very bad goblin and I'm sure he's sorry."

SISTER MARY'S KITCHEN

(A Menu for the Stout and Thin)

EAT AND—

Lose Weight—Gain Weight

Four tablespoons shredded pineapple, 1 shredded wheat biscuit, 1 cup consommé, 1 cup cooked vegetable salad, 4 ounces broiled shad with lemon juice, individual mold of cucumber jelly on bed of watercress, 1 new potato with minced parsley, 2 tablespoons string beans, 2 toasted wheat muffins, 1 bran roll, 1 pint skimmed milk.

Total calories, 1081. Protein, 274. Fat, 249. Carbohydrate, 508. Iron, 0.179 gram.

In making your vegetable salad arrange the vegetables in neat sections. The eye must be pleased in order for this salad to be a success. The salad as calculated was made of two tablespoons asparagus heads, two tablespoons diced carrots, one tablespoon new peas, one tablespoon string beans and two tablespoons diced beets on a bed of lettuce. Two tablespoons lemon juice seasoned with salt and pepper and a bit of onion juice was poured over the whole.

CUCUMBER JELLY

Two medium sized cucumbers, 1 small onion, 2 stalks celery, 2 tablespoons chopped green pepper, 1 tablespoon lemon juice, ½ teaspoon salt, ½ teaspoon pepper, 1 tablespoon granulated gelatine.

Parse and slice cucumbers. Cook cucumbers, onion, celery and pepper in two cups of water until the cucumbers are tender. Rub through a sieve. There should be two and one-quarter cups of puree. Add lemon juice, salt and pepper and bring to the boiling point. Pour over gelatine softened in cold water and turn into four individual molds. Let stand on ice until cold and turn them out and serve.

Total calories, 203. Protein, 71. Fat, 12. Carbohydrate, 120. Iron, 0.008 gram.

FASHION HINTS

SMART SCARF

The scarf that is pulled low over one shoulder and tied carelessly on the other is a distinct addition to the frock.

WHITE SWEATERS

White sweaters that button close by about the neck, or have a turnover or round collar bound with a color are very popular with school and college girls.

SMART FROCK

A most attractive frock of white taffeta has large circles of apple green georgette crepe appliqued over the surface.

VANITY CASES

Jeweled vanity cases come in black and white with clasps and ornaments of brilliants.

NEWEST FRINGE

The newest fringe is a combination of silk and jet beads. Incidentally, fringe is featured on every type of dress and on many wraps.

Four tablespoons shredded pineapple, 1 shredded wheat biscuit, 2 crisp pieces boiled bacon, 1 fried egg, 1 cup consommé, 1 cup cooked vegetable salad masked with 2 tablespoons mayonnaise, 2 sardines, 1 cup cream of asparagus soup, 4 ounces broiled shad with 2 table-spoons lemon butter, 3 new potatoes in cream sauce cucumber jelly on watercress with 2 tablespoons French beans in cream, 2 pieces toast, 1 tablespoon croutons, 2 slices rye bread, 2 dinner rolls, 1 table-spoon currant jelly, 4 tablespoons butter, ½ cup cream, 1 pint whole milk, 1-½ lemon meringue pie, 1 strawberry cream puff.

Total calories, 4015. Protein, 422. Fat, 1892. Carbohydrate, 1701. Iron, .019 gram.

The sardines can be used with the rye bread as sandwiches to accompany the vegetable salad. Remove the skin and back bone before using. The fish can be worked to a smooth paste with lemon juice or the flat sardine simply sprinkled with lemon juice. The food value will be the same.

Don't forget to fry an egg "specially." Intense heat and quick cooking will make the white tough with an unattractive brown coating on the under side of the egg.

Either the pie or the cream puff can be chosen for the luncheon dessert. As fish is present in both the luncheon and dinner menus a dessert with a fruit flavor is desirable.

PAPER CUTTERS DANGEROUS

You are courting trouble for your self and probably serious injury to children if you permit a paper cutter to lay on the top of a table where a child can reach it. A small leather covering for cutters can be purchased at small cost and they should be kept in a drawer away from youthful hands.

The Tangle

LETTER FROM LESLIE PRES COTT TO RUTH BURKE, CON-TINUED

With a queer look at me, Ruth my husband sprang toward the door.

"Here, old man, here's your 'Murrever.' Let her see what a big boy you are. Big boys don't cry. Go over there and tell her how much you love her and how you're going to take care of her when you grow up and love her better than even your father does."

Little Jack looked from his father to me, and with that uncanny insight that children have he sensed that something was wrong. But when he crawled up by my side on the bed, he put his tear-wet face down close to mine, and with his tiny hands wandering over my bosom and up on my pulsating throat, he said:

"Zackie going to stay here with you always Daddy can go home Zackie stay here."

I brought him to me with such a close caress I must have hurt him but there was never a quiver of the brave little mouth as he murmured:

"I love you best of all."

Ruth, at that moment there was born in me a love that I am sure no child of my own can in any way erase. I felt as though he had chosen me of his own accord and that with all his little soul he loved me.

"Here, here, what about me?" asked his father testingly.

"The boy looked at him uncertainly then held up his face for his father's kiss."

"Leslie," said Jack brokenly, "do you know where we are? Aren't we just entering that beautiful land of 'Beginning Again'?"

"Yes," I whispered as my arm stole around his "and a little child shall lead them."

But alas, how fallible are mortal plans. The telephone tinkled at that moment beside my bed. Jack answered it. I saw his face grow gray and soon and you would not think that a man's voice could change as did his.

"Mrs. Prescott is quite ill. She cannot come to the phone."

"But Jack," I said, "it's right here by my bed. I can answer it. Who is it?"

Jack raised his voice a little.

"I say Mrs. Prescott is ill. She cannot come to the phone."

"Who is it, Jack?" I peremptorily demanded.

For answer he said: "If you have anything of importance to say to Mrs. Prescott, Mr. Whitney, will you please write it to her?"

There was silence for a moment, then again Jack spoke:

"Yes I am Mr. Prescott."

Evidently Karl was trying to explain. My temper flared. I reached over and snatched the telephone from Jack.

"What is it, Karl, what is it?"

SICK WOMEN OF MIDDLE AGE

Can Be Carried Comfortably Over The Critical Period by Lydia E. Pinkham's Vegetable Compound—Note Mrs. Headen's Case

Macon, Georgia. — "During the Change of Life I suffered with my whole right side and could not lie on my left side. I was in bed about two months and could not get up only as my son would lift me. After doctoring without relief a man who was rooming with us told me that Lydia E. Pinkham's Vegetable Compound was the thing for me."

Compound cured his mother at the Change of Life, so I began taking your medicine. After taking it for two weeks I could get out of my bed by myself. I am now 53 years old and in better health and stronger than ever in my life. I have recommended the Vegetable Compound to many suffering women, young and old, and you may use my name anywhere as long as you please. I will be glad to answer any letters sent to me."

Mrs. F. B. HEADEN, 5 Holt Avenue, Macon, Georgia.

In a recent country-wide canvass of Lydia E. Pinkham's Vegetable Compound, over 200,000 replies were received and 93 out of every 100 reported they had been benefited by its use. For sale by druggists everywhere.

Household Hints

USE BOTH SIDES

When using long-handled brushes and brooms try to use both sides

evenly if you want them to wear the longest possible time.

WRONG SIDE OUT

Hang colored clothes wrong side out when you dry them, and hang

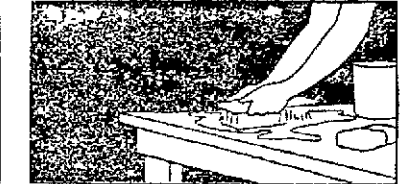

them where there is a good current of air so they may dry quickly.

PUT IN JAR

If all the pinpoints are not used when the can is opened, put them in a covered glass jar and pour olive oil over them and they will last for several days.

USE MILD SOAP

Use very mild soap when cleaning

white woodwork, as strong soap turns it yellow in a short time.

Blue Quintet Faces Two of Season's Hardest Contests at Waukesha and Milwaukee

Carroll college at Waukesha and Marquette at Milwaukee will be the next opponents of the Lawrence college team. In what are looked out to be two of the hardest contests on the Lawrence schedule, the Lawrence team is putting in overtime at drill this week in preparation for the weekend trip to Waukesha and Milwaukee, and Coach A. C. Denney is giving his substitutes all the work they can carry. While the regulars are doing well, four of them are nursing injuries which may take them out of the game at any moment, and the string is woefully weak in replacements.

After meeting the strong Waukesha quintet on Friday evening the Lawrence team must journey to Milwaukee to battle Marquette there the next evening. However, Marquette and Carroll play each other Wednesday night which will even the handicap somewhat.

On paper Lawrence has an edge on Carroll, having beaten Milton 28 to 16 and Concordia 45 to 15 while Carroll, beat Milton by the same score and Concordia, 35 to 15. Carroll has the advantage as far as substitutes are concerned and will be playing on its home court. Marquette also will have the same advantage. If Lawrence can keep its regulars in both games to the finish, the Blues have a good chance to win both games.

Last week when they played Ripon their shooting was poor and they won the game by a margin of two points. Denney is drilling them on this department chiefly. Their floorwork was good in Friday's contest, but in the punches they became nervous and overanxious and several of their passes were bad. This probably will wear off with experience.

Denney has not yet chosen the men he will take with him on the trip in addition to his regulars, but it is practically certain that Heideman and Zusman will start as forwards, Ashman as center, and Biese and Kosh as guards, with Grove and Kosch as two of the substitutes.

ZIVIC WILL SEEK
CROWN OF LIGHTS

By Associated Press
Pittsburg, Pa.—Jack Zivic of Pittsburg, conqueror of Lew Tindler of Philadelphia in a famous bout here Monday night, will go after the lightweight championship recently vacated by Benny Leonard if he can make the weight. James Driscoll, Zivic's manager, announced Tuesday Driscoll said he would place Zivic in the hands of Jimmy DeForest, veteran trainer of boxers, for a period of 30 days to develop the local fighter's possibilities as a lightweight fighter. Zivic who weighed 141 pounds in Monday night's fight, scored a technical knockout over Tindler in the fifth round of a scheduled ten-round fight. Tindler dropped to the canvas under a shower of rights and lefts to the gas but arose at the end of the count of nine. Zivic continued a savage attack and Tindler's seconds ended the fight by tossing a towel into the ring when the Philadelphia fighter dropped again.

WAUPACA WINS INITIAL
CAGE TILT IN MICHIGAN

Fred Bushey's Waupaca basketball squad Saturday took a first rough game from a Novato, Mich., team, 10 to 12. The contest was the only of several scheduled for Waupaca on its trip through Michigan.

Referee

Was Dazzy Vance's feat of winning 15 consecutive games last season a new major league mark?—A. A. B.

No. Rube Marquard, while a member of the Giants, turned in 19 straight victories about a dozen years ago. Vance won 15 of the Boston Americans in 1912 and Walter Johnson of Washington, in 1913, skipped through 16 successive battles victorious. These stand as the high mark for modern baseball.

Has "Little Bill" Johnston ever held the national singles tennis championship?—O. R. C.

Yes. Johnston capped the honors in 1915 and again in 1919. The latter year he beat his arch-enemy, Wilfred "Big Bill" Johnston, the only time to date that Johnston has been able to defeat "Big Bill," though they have met several times for the honor.

Where is Kid Lavigne, one-time lightweight champion of the world?—R. A. C.

At last reports Lavigne was working in an automobile factory in Detroit.

Veteran Manager Prepares to Meet Severest Test of Giant's Career

New York.—The New York Giants, storm centers of baseball, are building formidably for the 1925 campaign a pennant struggle that promises to put the morale of the National league champions to one of the severest tests of their career.

John McGraw, gray haired chief of the club, knows that his team faces a strenuous fight and realizes the handicaps it will encounter as an outgrowth of the 1924 bribery scandal.

But McGraw's confidence in his outfit is none the less keen as he maps out his 1925 plan of attack. The veteran leader set a new modern record last year when he won his fourth straight pennant and he hopes to make it five straight this year, thus setting a mark for all time.

In the early days of the game, Boston and St. Louis clubs each won four straight pennants, the former in the National association and the latter in the old American association a few years later.

McGraw has made no radical changes and contemplates none in their array that won the 1924 flag, but is concentrating a good share of his efforts on bolstering the battery department where the club's outstanding weakness has been for several seasons. To this end the Giants already have collected a corps of 19 pitchers for spring training at Sarasota, Fla. In addition to new back stopping talent, needed to replace or aid Hank Gowdy and Frank Snyder, the veterans who did the bulk of the work last year.

Outside of the batteries, the only major shift in the team as it left the field in the last world's series game will be the return of Heinie Groh to third base in place of Freddy Lindstrom, schoolboy, whose play was a sensation in the championship battle with Washington.

WISCONSIN DROPS
MICHIGAN CONTEST

Ann Arbor, Mich.—Michigan won a tight defensive game from Wisconsin here Monday night, 14 to 12. Captain Haggerty converting a tie game into a win by a field basket with less than a minute to play, Wisconsin presented a sterling defense with the beginning of the second half, and Michigan leading, 10 to 6, at the intermission, found itself tied at 10 all and again at 12 all. The victory advances Michigan to a place just behind unbeaten Illinois and Iowa in the conference standings.

BROTHERHOOD KEGGLERS
WIN FROM GREEN BAY

Two Green Bay kegling teams Monday invaded Appleton and each dropped two out of three games to a team of the First English Evangelical Lutheran Brotherhood league on the Appleton side here. A. A. ZBYSZKO AGREES
TO GRAPPLE TWO
MEN HERE FEB. 2

George Hills Will Be First to Try Conclusions With Veteran Pole

Stanislaus Zbyszko has agreed to meet George Hills and another wrestler to be chosen by Elmer Johnston, in Armory G here on Tuesday, Feb. 3. The second grappler who will oppose the veteran has not yet been picked, but Young Romanoff of Gary, Ind., probably will be Johnston's choice.

Despite his forty odd years, the mighty Pole is said to be as good as ever. At any rate he appears to have plenty of confidence in his prowess, for he has agreed to throw both his opponents here in 75 minutes each or forfeit the match and his share of the purse. In view of the fact that Zbyszko does not know whom Johnston will select, he is willing to take a big chance.

Recently an article in the Chicago Tribune made the statement that Zbyszko was sure to be matched with "Big" Munn who two weeks ago took the championship from Ed "Strangler" Lewis.

Hills made a very creditable showing with the giant Pole when he wrestled him here some years ago, and since that time has steadily improved. Since leaving here he has been meeting some of the best men in the country with but few defeats marked up against him. Zbyszko, Lewis, Caddick, Mound, and Sanders vanquished him, but he made a good showing even in defeat.

Manager Stanley Harris predicts that Earl McNeely will be one of the best outfielders in the American League the coming season.

McNeely joined the Nats late in the 1924 race and by his fine work added materially in winning the pennant. It was his hit that decided the final game of the world series and won the championship for Washington.

Independents Will Meet Invasion of Co. D Five of Appleton in Prelim

Kimberly—With but two defeats chalked up against them, the Kimberly-Clark Athletics Wednesday evening are due to meet the Oconto Legion quintet in the Kimberly club house. The game is being advertised widely as one of the main attractions of the Kimberly season, for the Legionaires are one of the two teams which have defeated the Athletics. Early in the season the Kimberly quintet journeyed to Oconto and took a 20 to 12 drubbing, the game being very fast and close up to the final seconds of play. At that time the Athletics had just started playing with their new lineup and their teamwork had not yet been developed.

Since that defeat Kimberly has lost but one other game, "Doc" Delmore's Two Rivers outfit profited by an off day for the Athletics and beat them. There will be a preliminary game in which the Kimberly Independents clash with the Co. D team of Appleton. The Independents have been going strong, but look forward to a hard battle with the Appleton guardsmen.

Billy Bortfield and Harry Kahn Clash in Feature Attraction Monday

Milwaukee—Wisconsin's leading lightweight boxer will just about be determined next Monday night at the Empress theater when Billy Bortfield, Milwaukee's latest fistic sensation, and Harry Kahn, who in the minds of many fans is a close runner up in the battle for local prestige, meet in an eight round bout of a double windup. Joe Azzarella, Hy-me Lebo's slashing little Italian, will meet Charley Weber, George Ryan's lightweight, in the other half of the wind up. In the semi-windup, Al Russell and Bud Logan are scheduled for six rounds at 150 pounds. In the co. prelims, Bill Kubik will encounter Jack Monahan and Carl Deber will mix with Sid Kelley. Both bouts will be four rounds.

Due January 1, 1950

1, 1935, at 104 and accrued interest, after January 1, 1935 interest; after January 1, 1940 and on or before January 1945 and on or before January 1, 1949 at 101 and as of 1, 1949 at 100 and accrued interest.

any Federal Income Tax not exceeding 2% which the Company holds, and to reimburse the holders of these bonds, if requested Mills Tax and for the Massachusetts Income Tax on the interest

Wiley F. Corl, President of the Company:

EARNINGS: The consolidated net earnings of the Company and its subsidiaries for the twelve months ended November 30, 1924, available for interest charges, Federal Income Taxes and depreciation, were equal to approximately TWO AND ONE-THIRD

TIMES the annual interest requirements of all First Mortgage Collateral Gold Bonds, including the present issue.

MAINTENANCE AND RENEWAL FUND: Each subsidiary must maintain a maintenance and renewal fund and charge thereto at least once each year 12 1/2 % of the gross income from the operation of its properties.

SINKING FUND: The agreement provides for an annual Sinking Fund beginning Jan 1, 1926 of 2 % of series "D" bonds outstanding from time to time

APPRAISAL VALUE OF PROPERTIES: The combined properties have a conservative present value, after making liberal deductions for depreciation, of \$10,444,782.28, a sum equal to over one hundred times the entire outstanding bonded debt, including this issue.

FRANCHISES: In the opinion of counsel, the franchises of the several subsidiary corporations are satisfactory. With few exceptions, the franchise are of

long duration, most of the more important ones having been obtained recently.

Ten Dollars A Minute

Those few minutes that you spend in reading the A-B-O Classified Section of the Post-Crescent every day are worth good money to you.
Sometimes they're worth a dollar apiece, sometimes ten dollars, and sometimes a great deal more-all depending on what you need that particular day.
No matter what you want, you can count on one thing-that the quickest, easiest and least expensive way of getting it is to look it up among the ads in the classified columns.
Some advertiser on this page may be waiting to sell you just what you want-from an automobile to a banjo-at a saving over the original price.
If you can't find what you're looking for, you'll get it through inserting an ad of your own-call 543 and ask for an ad-taker.
